| Sommario/riassunto | "The ideas of capitalism's most vigorous and eloquent enemy have been enlightening in every era, the author contends, and our current |

historical situation of free-market extremes suggests that reading Marx may be more important now than ever. Hobsbawm begins with a consideration of how we should think about Marxism in the post-communist era, observing that the features we most associate with Soviet and related regimes--command economies, intrusive bureaucratic structures, and an economic and political condition of permanent war--are neither derived from Marx's ideas nor unique to socialist states. Further chapters discuss pre-Marxian socialists and Marx's radical break with them, Marx's political milieu, and the influence of his writings on the anti-fascist decades, the Cold War, and the post--Cold War period. Sweeping, provocative, and full of brilliant insights, How to Change the World challenges us to reconsider Marx and reassess his significance in the history of ideas." --Publisher's website.

The Phenomenon of Boko Haram Terrorism in Nigeria -- Understanding the Changing Context for Terrorism -- Political Economy of Nigeria -- Evolution, Ideological Foundation and Strategy of Boko Haram in Nigeria -- RC of Boko Haram Terrorism: Socio-Economic Prism -- Conclusion: Responses and Recommendations to End Boko Haram Terrorism.

Sommario/riassunto

This book investigates the socio-economic determinants of the emergence and persistence of Boko Haram terrorism in Nigeria. Since 2009, Boko Haram continues to capture mainstream news headlines, as well as the imagination of aspiring young Salafi-jihadists around the world who support the notion of a radical Islamist socio-political system. By providing an essential overview of the literature on Boko Haram and bridging research and current events, the authors cover a broad spectrum of topics and suggest relevant policies for addressing the problem of Boko Haram terrorism. While Boko Haram's motivations are ostensibly religious, the primary focus is on socio-economic inequality as one of the main factors that predispose the disillusioned, poverty-driven and jobless populace in the northern regions of Nigeria to take up arms against the state. The insights presented in this book will help researchers and policy-makers alike to understand the emergence of locally focused terrorist groups and insurgencies.
