Sommario/riassunto	This book is one of the first to systematically explore cultural interactions between the Northern Zone of China and the Eurasian Steppe, with a focus on the formation process of the Xiongnu Confederation and the Silk Road. Combining partition and staging analyses, the authors adopt a broad perspective, viewing the Northern Zone as part of the Eurasian Steppe and combining history with culture by investigating the spread of bronze artifacts. In addition, with more than three hundred figures and color photographs, it offers readers a

uniquely grand panorama of two thousand years of cultural interactions  
between the Northern Zone of China and the Eurasian Steppe.
