

1. Record Nr.	UNINA9910484854303321
Autore	Akiyama J
Titolo	Factors and factorizations of graphs : proof techniques in factor theory // Jin Akiyama, Mikio Kano
Pubbl/distr/stampa	New York, : Springer, 2011
ISBN	9783642219191 3642219195
Edizione	[1st ed. 2011.]
Descrizione fisica	1 online resource (XII, 353 p. 153 illus.)
Collana	Lecture notes in mathematics (Springer-Verlag), , 0075-8438 ; ; 2031
Altri autori (Persone)	KanoMikio
Disciplina	512/.57
Soggetti	Factors (Algebra) Factorization (Mathematics) Graph theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1 Basic Terminology -- 2 Matchings and 1-Factors -- 3 Regular Factors and f-Factors -- 4 (g, f)-Factors and [a, b]-Factors -- 5 [a, b]-Factorizations -- 6 Parity Factors -- 7 Component Factors -- 8 Spanning Trees.
Sommario/riassunto	This book chronicles the development of graph factors and factorizations. It pursues a comprehensive approach, addressing most of the important results from hundreds of findings over the last century. One of the main themes is the observation that many theorems can be proved using only a few standard proof techniques. This stands in marked contrast to the seemingly countless, complex proof techniques offered by the extant body of papers and books. In addition to covering the history and development of this area, the book offers conjectures and discusses open problems. It also includes numerous explanatory figures that enable readers to progressively and intuitively understand the most important notions and proofs in the area of factors and factorization.
