Record Nr. UNINA9910484926103321 Encyclopedia of Pain [[electronic resource] /] / edited by Robert F. **Titolo** Schmidt, W.D. Willis Pubbl/distr/stampa Berlin, Heidelberg:,: Springer Berlin Heidelberg:,: Imprint: Springer, 2007 **ISBN** 3-540-29805-3 Edizione [1st ed. 2007.] Descrizione fisica 1 online resource (600 illus. in color. eReference.) Collana Springer reference Disciplina 616.047203 Soggetti Pain medicine Pain Medicine Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Bibliographic Level Mode of Issuance: Monograph Nota di bibliografia Includes bibliographical references and list of entries. Sommario/riassunto This is the most comprehensive overview available anywhere on the broad, multi-faceted and complex topic of pain - and the rapidly evolving scientific and medical disciplines that seek to understand, assess and treat pain. The Encyclopedia of Pain includes more than 3,000 entries and provides clear, detailed and up-to-date coverage of the current state of research, and treatment of pain. In addition, detailed essays provide in-depth information on all aspects of nociception and pain, including substrates, causes, pathophysiology, symptoms and signs, diagnoses and treatment. A thousand color figures enhance understanding of this too-little-understood topic. Solidly structured and inclusive, this three-volume reference is an invaluable tool for clinical scientists and practitioners in academia. health care and industry, as well as students, teachers and interested

laypersons.
