   Note generali   Includes index.

   Nota di contenuto   Data Streams and and Time Series Analysis -- Classification, Clustering
                         and Pattern Discovery -- Graphs, Networks and Relational Data --
                         Machine Learning and Music Data.

   Sommario/riassunto   This book constitutes the thoroughly refereed post-conference
                         proceedings of the Second International Workshop on New Frontiers in
                         Mining Complex Patterns, NFMCP 2013, held in conjunction with
                         ECML/PKDD 2013 in Prague, Czech Republic, in September 2013. The
                         16 revised full papers were carefully reviewed and selected from
                         numerous submissions. The papers are organized in topical sections on
                         data streams and time series analysis, classification, clustering and
                         pattern discovery, graphs, networks and relational data, machine
                         learning and music data.
