

1. Record Nr.	UNINA9910484957203321
Titolo	Emergency General Surgery in Geriatrics / / edited by Rifat Latifi, Fausto Catena, Federico Cocolini
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	3-030-62215-0
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (490 pages)
Collana	Hot Topics in Acute Care Surgery and Trauma, , 2520-8292
Disciplina	617.97
Soggetti	Surgery Emergency medicine Critical care medicine Geriatrics Medical care Emergency Medicine Intensive Care Medicine Health Care
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	General consideration in elderly surgical patients -- 1 Introduction to emergency surgery geriatrics -- 2 Evaluation of geriatric surgical patients in emergency medicine department: surgeons view -- 3 Radiologic evaluation of elderly surgical patients -- 4 The effect of medical comorbidities of geriatric patients undergoing major surgeries -- 5 Practical approaches to perioperative management of anticoagulation -- 6 Anesthetic concerns in advanced age -- 7 Perioperative nutritional support in elderly -- 8 Antibiotic management in elderly -- 9 Post-operative rehabilitation -- ii: Specialized surgical care in elderly -- 10 Trauma care for the elderly -- 11 Abdominal catastrophes in the elderly -- 12 Esophageal cancer and hiatal hernia in elderly -- 13 Gastric and duodenal perforation -- 14 Gastro-intestinal bleeding in elderly -- 15 Small bowel obstruction -- 16 Diverting stomas in elderly -- 17 Acute large bowel obstruction -- 18 Damage control and open abdomen in elderly -- 19 Ventral hernia in elderly --

20 Abdominal wall reconstruction in the elderly -- 21 Hepato-biliary surgery in elderly -- 22 Pancreatic surgery in the elderly -- 23 Necrotizing soft tissue infection in elderly -- 24 Inguinal hernia in elderly -- 25 Renal replacement therapy in elderly -- 26 Intensive care of the elderly -- 27 Palliative and end of life care for the elderly -- 28 Focus on elderly surgical emergency management in low resource setting.

#### Sommario/riassunto

There is a growing need for a book on emergency general surgery in the elderly, as adults age 65 and older are the fastest growing segment of the population worldwide, and their number is expected to double to 89 million between now and 2050. Based on these changing demographics, it is expected that there will be a concurrent rise in the demand for a variety of surgical services, including vascular surgery (with a projected growth of 31%) and general surgery (with a projected growth of 18%), as well as in all sub-disciplines of surgery (thoracic, cardiac, oncology, hepatobiliary, transplant, plastic colorectal, orthopedic, gynecologic, urology and neurosurgery). In addition, older surgical patients often require a different level of care than younger patients during the preoperative, intraoperative and postoperative phases. Many of our geriatric population have multiple chronic illnesses beyond the one for which surgery is required, and therefore are prone to developing postoperative complications, functional decline, loss of independence, and other undesirable outcomes. In response, this book offers surgeons, geriatricians and nurses state-of-the-art surgical approaches and essential information on the complex perioperative care of the elderly. .
