Challenges for Further Development -- Part III: Impact on National Law of European Union Member States -- 13. Interrelation Between European Union Protection and National Protection -- 14. Liability aspects -- 15. Competence Aspects of Responsible State Institutions.
Sommario/riassunto	The present book examines both theoretical and practical aspects of the law on indications of geographical origin (IGOs) within the framework of European Union (EU) law, pursuing four distinct yet

mutually related aims. First, it discusses theoretical issues of the law on IGOs including its historical foundations, terminology, principles of regulation, legal subjectivity, protection models, and loss of protection. Second, it covers the EU law on IGOs from a systematic point of view. Particularly, the systematic review of the EU law on IGOs includes an in-depth analysis of and commentary on the relevant and applicable regulations. Third, it examines current legislative initiatives and further development options for the EU law on IGOs. Finally, it reveals the interrelation of the EU law on one hand and the national laws of EU Member States on the other with regard to IGOs, focusing on harmonized and non-harmonized areas of law.
