Sommario/riassunto	The three-part work provides a first synthetic account of the history of

the Polish intelligentsia from the days of its formation to World War I. Part two (1832-1864) analyses the growing importance of the intelligentsia in the epoch marked by the triumph of the Polish romanticism. The stress is put on the debates of the position of intelligentsia in the society, as well as on tensions between great romantic ideas and realities of everyday life. A substantial part deals with the genesis, outbreak and defeat as well as the consequences of the national uprising in 1863, whose preparation was to
