

1. Record Nr.	UNINA9910485592303321
Autore	Augusto Adriano
Titolo	Enterprise, Business-Process and Information Systems Modeling : 22nd International Conference, BPMDS 2021, and 26th International Conference, EMMSAD 2021, Held at CAiSE 2021, Melbourne, VIC, Australia, June 28–29, 2021, Proceedings / / edited by Adriano Augusto, Asif Gill, Selmin Nurcan, Iris Reinhartz-Berger, Rainer Schmidt, Jelena Zdravkovic
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	9783030791865 3030791866
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (401 pages)
Collana	Lecture Notes in Business Information Processing, , 1865-1356 ; ; 421
Altri autori (Persone)	GillAsif NurcanSelmin Reinhartz-BergerIris SchmidtRainer ZdravkovicJelena
Disciplina	005.3
Soggetti	Application software Business information services Software engineering Information technology - Management Computer and Information Systems Applications IT in Business Software Engineering Computer Application in Administrative Data Processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Improving event data quality in coherence with business requirements (BPMDS 2021) -- From Network Traffic Data to Business Activities: A Process Mining Driven Conceptualization -- A NLP-oriented Methodology to Enhance Event Log Quality -- Enhancing the value of data in processes improvement (BPMDS 2021) -- Detecting and

Understanding Branching Frequency Changes in Process Models -- Detecting the "Split-Cases" Workaround in Event Logs -- "Towards a Content-Based Process Mining Approach in Personal Services -- Event stream and predictive monitoring (BPMDS 2021) -- Generating Reliable Process Event Streams and Time Series Data based on Neural Networks -- Inter-Case Properties and Process Variant Considerations in Time Prediction: A Conceptual Framework -- Towards Reliable Business Process Simulation: A Framework to Integrate ERP Systems -- Modeling languages and reference models (BPMDS 2021) -- Supporting Data-Aware Processes with MERODE -- Evaluating Perceived Usefulness and Ease of Use of CMMN and DCR -- Subject-Oriented Reference Model for Virtual Factory Operations Commissioning -- Enterprise Modeling (EMMSAD 2021) -- Participatory Modeling From a Stakeholder Perspective: On the Influence of Collaboration and Revisions On Psychological Ownership and Perceived Model Quality -- Reference Service Model for Federated Identity Management -- Traceability from the Business Value Model to the Enterprise Architecture: A Case Study -- Design Thinking and Enterprise Modeling: An Investigation of Eight Enterprise Architecture Management Projects -- Handling Models and Modeling Methods (EMMSAD 2021) -- Formalizing Conceptual Modeling Methods with MetaMorph -- Situation-specific Business Model Development Methods for Mobile App Developers -- Searching for Class Models -- From Mental Models to Machine Learning Models via Conceptual Models -- Threat and Evidence Modeling (EMMSAD 2021) -- Towards Measuring Test Coverage of Attack Simulations -- Murder, She Modeled: Modeling to Support Crimino-Forensic Processes. - Model-Driven Engineering & Applications (EMMSAD 2021) -- Model-Driven Engineering: A State of Affairs and Research Agenda -- FloWare: an Approach for IoT Support and Application Development -- A Model-based Application for the Effective and Efficient Management of Data associated with Retina-Macula Pathology -- API Management Maturity of Low-Code Development Platforms.

Sommario/riassunto

This book contains the proceedings of two long-running events held along with the CAiSE conference relating to the areas of enterprise, business-process and information systems modeling: * the 22nd International Conference on Business Process Modeling, Development and Support, BPMDS 2021, and * the 26th International Conference on Exploring Modeling Methods for Systems Analysis and Development, EMMSAD 2021. The conferences were planned to take place in Melbourne, Australia, during June 28–29, 2021, but changed to an online format due to the COVID-19 pandemic. For BPMDS 10 full papers and 1 short paper were carefully reviewed and selected for publication from a total of 26 submissions; for EMMSAD 13 full papers and 1 short paper were accepted from 34 submissions. The papers were organized in topical sections as follows: BPMDS: Improving event data quality in coherence with business requirements; enhancing the value of data in processes improvement; event stream and predictive monitoring; modeling languages and reference models; EMMSAD: Enterprise modeling; handling models and modeling methods; threat and evidence modeling; and model-driven engineering and applications .

Titolo	100 Years of Radio in South Africa, Volume 2 : Community Radio, Digital Radio and the Future of Radio in South Africa / / edited by Sisanda Nkoala, Gilbert Motsaathebe
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Palgrave Macmillan, , 2024
ISBN	9783031407062 3031407067
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (201 pages)
Disciplina	384.54
Soggetti	Radio broadcasting Ethnology - Africa Culture Journalism Radio African Culture Audio Journalism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1: Introduction_Community and Online Radio as Emerging Frontiers of South African Audio broadcasting: An introduction -- 2: Creating an enabling policy environment for democratic participation through community radio: Perspectives of a practitioner -- 3: Language Revitalization and Community Broadcasting in South Africa: A Case of Vaaltar FM -- 4: The Role of Community Radio in Youth Empowerment: A Case Study of Bush Radio -- 5: Radio Waves of Inclusion: A Practitioner's Perspective on the Catholic Church's Use of Radio Broadcasting for Evangelisation in South Africa -- 6: More than just Edutainment: Indigenous South African community radio music programmes as preservers of African Traditional Cultures -- 7: Radio and social media convergence: Motswedeng FM's use of WhatsApp and the African language digital public sphere -- 8: Radio production in the digital era: lessons from South Africa -- 9: Podcasting Unleashed:

Amplifying Indigenous Language Speakers' Agency in South Africa's Shifting Media Terrain -- 10: Evolving trends in radio broadcasting in South Africa: the case of Podcast and Chill with MacG -- 11: Final thoughts_Community Radio and the Digital Milieu: Challenges and Opportunities for the next century of South Africa's Radio Landscape. .

Sommario/riassunto

The book brings together media scholars and practitioners to deliberate on the role and influence of radio broadcasting in South Africa over the past 100 years. The publication will add to the existing body of knowledge on radio in this context by being among one of the few to consider radio broadcasting in South Africa. Essentially, the book will make a distinct contribution focusing on a critique of the medium's role in community-building and culture making among others. While the book will provide relevant theoretical frameworks, it also aims to include the voices of media practitioners who can reflect on the importance of this medium from a more realistic perspective. Volume 2 focuses on the impact of digitization on radio in South Africa, and considers the future of radio in South Africa.
