

1. Record Nr.	UNINA9910485606603321
Titolo	Biodiversity of Southeast Asian parasites and vectors causing human disease // Trevor N. Petney, Weerachai Saijuntha and Heinz Mehlhorn (editors)
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-71161-7
Descrizione fisica	1 online resource (216 pages)
Collana	Parasitology Research Monographs ; ; v.14
Disciplina	616.960959
Soggetti	Parasitic diseases - Southeast Asia Tropical medicine - Southeast Asia Medical parasitology - Southeast Asia Paràsits Biodiversitat Malalties parasitàries Llibres electrònics Sud-est asiàtic
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Preface -- Contents -- Contributors -- Chapter 1: The Changing Biodiversity of Parasite Hosts in Southeast Asia -- 1.1 Introduction -- 1.2 Overall Situation: Changing Patterns of Diversity -- 1.3 Terrestrial Vertebrates -- 1.4 Reptiles -- 1.5 Fish -- 1.6 Invertebrates -- 1.7 Animal Trade -- 1.8 Effect on Parasites -- 1.9 Consequences for human and Animal Health -- References -- Chapter 2: Species Richness and Species Co-occurrence of Helminth Parasites in the Rattus rattus-Complex Across Stratified Hab... -- 2.1 Studies on Murid Rodents and their Helminth Fauna from Mainland Southeast Asia -- 2.2 Helminth Diversity in the Rattus rattus- Complex Based on Geographical Distribution and Stratified Habitats -- 2.3 Helminth Species Co-occurrences in the Rattus rattus-Complex -- 2.4 Conclusions -- References -- Chapter 3: Intestinal Protozoa: Their Role as Human Pathogens and Zoonoses -- 3.1 Introduction -- 3.2 Giardia

duodenalis -- 3.3 *Entamoeba histolytica* -- 3.4 *Cryptosporidium* -- 3.5 *Blastocystis* sp. -- 3.6 Conclusions -- References -- Chapter 4: Biodiversity of Human Trematodes and Their Intermediate Hosts in Southeast Asia -- 4.1 Introduction -- 4.2 Biology and Life Cycle of Trematodes -- 4.3 Diversity of Human Trematodes -- 4.3.1 Intestinal Flukes -- 4.3.2 Liver Flukes -- 4.3.3 Lung Flukes -- 4.3.4 Blood Flukes -- 4.4 Diversity of Snail Intermediate Hosts -- 4.5 Diversity of Second Intermediate Hosts and Sources of Transmission -- 4.5.1 Foodborne Transmission -- 4.5.2 Waterborne Transmission -- 4.6 Genetic Diversity -- 4.6.1 Echinostomatids and Heterophyids -- 4.6.2 Genera *Opisthorchis* and *Clonorchis* -- 4.6.3 Genus *Fasciola* -- 4.6.4 Genus *Paragonimus* -- 4.6.5 Genus *Schistosoma* -- 4.7 Conclusions -- References -- Chapter 5: The Community of Nematodes Inhabiting the Human Gut -- 5.1 Introduction. 5.2 Nematodes That Infect the Human Small Intestine -- 5.2.1 *Strongyloides* Species in Southeast Asian Countries (*Strongyloides stercoralis* and *Strongyloides fuelleborni*) -- 5.2.1.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.2.1.2 Evidence and Identification of *Strongyloidiasis* in Humans -- 5.3 Genetic Diversity of *Strongyloides* and Related Species in Humans -- 5.3.1 Hookworms and Related Roundworms (*Necator americanus*, *Ancylostoma duodenale*, *Ancylostoma ceylanicum*, *Trichostrongylus* co... -- 5.3.1.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.3.1.2 Evidence and Identification of Hookworm and *Trichostrongylus* Infections in Humans -- 5.3.1.3 Genetic Diversity of Hookworms and *Trichostrongylus* Species in Humans -- 5.3.2 *Capillaria philippinensis* -- 5.3.2.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.3.2.2 Evidence and Identification of Human *Capillariasis* -- 5.3.2.3 Prospective Genetic Diversity of *Capillaria philippinensis* and Related Species -- 5.3.3 *Ascaris lumbricoides* -- 5.3.3.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.3.3.2 Evidence and Identification of *Ascariasis* in Humans -- 5.3.3.3 Genetic Diversity of *Ascaris lumbricoides* and Related Species -- 5.3.4 *Trichuris trichiura* and Related Species -- 5.3.4.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.3.4.2 Evidence and Identification of *Trichuriasis* in Humans -- 5.3.4.3 Genetic Diversity of *Trichuris trichiura* and Related Species -- 5.3.5 *Enterobius vermicularis* -- 5.3.5.1 Parasite Distribution and Human Behavior Risk Factors for Infection -- 5.3.5.2 Evidence and Identification of *Enterobiasis* in Humans -- 5.3.5.3 Genetic Diversity of *Enterobius vermicularis* and Related Species -- References. Chapter 6: Molecular Identification and Genetic Diversity of Cestodes in Southeast Asia -- 6.1 Introduction -- 6.2 *Taenia saginata* (Beef Tapeworm), *Taenia solium* (Pork Tapeworm), *Taenia asiatica* (Asian Tapeworm) -- 6.2.1 Classification/Geographic Distribution/Biology and Infection -- 6.2.2 Molecular Identification and Genetic Diversity -- 6.3 *Echinococcus* Spp. (Hydatid Worm, Dog Tapeworm, Fox Tapeworm) -- 6.3.1 Classification/Geographic Distribution/Biology and Infection -- 6.4 *Hymenolepis* Spp. (Dwarf Tapeworm, Rat Tapeworm) -- 6.4.1 Classification/Geographic Distribution/Biology and Infection -- 6.5 *Spirometra* Spp. (Dog Tapeworm, Cat Tapeworm) and *Sparganum proliferum* -- 6.5.1 Classification/Geographic Distribution/Biology and Infection -- 6.5.2 Molecular Identification and Genetic Diversity -- 6.6 *Dibothriocephalus* and *Diphyllobothrium* Spp. (Broad Tapeworms) -- 6.6.1 Classification/Geographic Distribution/Biology and Infection -- 6.7 Conclusion Remarks and Research Needs -- References -- Chapter 7: Black Fly Diversity and Impacts on Human Welfare in Southeast Asia -- 7.1 Biology -- 7.2 Medical and Veterinary Importance of Black Flies

-- 7.3 Biodiversity of Black Flies in Southeast Asia -- 7.4 Public Health
Important of Black Flies in Southeast Asia -- References -- Chapter 8:
Ticks: A Largely Unexplored Factor in Disease Transmission -- 8.1
Introduction -- 8.2 The Tick Fauna -- 8.3 Tick Genetic Diversity -- 8.4
Tick Biodiversity on Host Species -- 8.5 Ticks as Vectors -- 8.6
Pathogen Identification -- 8.7 Pathogen Diversity -- 8.8 Dynamic
Changes in Tick and Tick-Borne Pathogen Communities -- 8.9
Conclusions -- References -- Chapter 9: Parasite Diversity, Dynamics,
and Climate Change -- 9.1 Introduction -- 9.2 The Situation in
Southeast Asia -- 9.3 Influence on Parasite Biodiversity -- 9.4
Mangroves -- 9.5 Tropical Forests.
9.6 Cities, Towns, and Villages -- 9.7 Agricultural Land -- 9.8 Natural
Freshwater Ecosystems -- 9.9 Evolution and Adaptation -- 9.10
Conclusions -- References -- Chapter 10: Praziquantel: An Efficacious
Pharmaceutical Compound to Treat Human and Animal Infections Due
to Trematodes and Ce... -- 10.1 History -- 10.2 Use of Praziquantel --
Bibliography: History of important tests of efficacy.
