|-------------------------|--|
| 1. Record Nr. | UNINA9910485607603321 |
| Titolo | Fungal diseases in animals : from infections to prevention // Arti Gupta and Nagendra Pratap Singh, editors |
| Pubbl/distr/stampa | Cham, Switzerland : , : Springer, , [2021] ©2021 |
| ISBN | 3-030-69507-7 |
| Descrizione fisica | 1 online resource (201 pages) |
| Collana | Fungal Biology |
| Disciplina | 636.0896969 |
| Soggetti | Mycoses Veterinary mycology Micosi Micologia veterinària Llibres electrònics |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Intro -- Preface -- Acknowledgments -- Contents -- Contributors -- About the Editors -- Chapter 1: Fungal Diseases of Bovines -- 1.1 Introduction -- 1.2 Fungal Diseases Transmission -- 1.3 Principal Bovine Fungal Diseases -- 1.3.1 Epizootic Lymphangitis -- 1.3.2 Ringworm (Dermatomycosis) -- 1.3.3 Aspergillosis -- 1.3.4 Mycotic Mastitis -- 1.3.5 Sporotrichosis -- 1.3.6 Paracoccidioidomycosis -- 1.3.7 Fungal Abortions -- 1.3.8 Cutaneous Pythiosis -- 1.3.9 Pithomycototoxicosis -- 1.3.10 Zygomycosis (Mucormycosis) -- References -- Chapter 2: Mycotoxins and Their Consequences in Livestock -- 2.1 Introduction -- 2.2 Classification of Mycotoxins -- 2.2.1 Aflatoxins -- 2.2.2 Ochratoxins -- 2.2.3 Zearalenone -- 2.2.4 Trichothecenes -- 2.3 Factors Affecting the Growth of Mycotoxins -- 2.3.1 Physical Factors -- 2.3.1.1 Moisture -- 2.3.1.2 Temperature -- 2.3.2 Chemical Factors -- 2.3.2.1 CO2 -- 2.3.2.2 Oxygen -- 2.3.2.3 Mineral Nutrition -- 2.3.3 Biological Factors -- 2.3.3.1 Plant Stress -- 2.3.3.2 Transmission of Mycotoxins -- 2.3.3.3 Effect of Mycotoxins on Livestock -- 2.4 Mycotoxins in Pigs -- 2.4.1 Factors That Causes Mycotoxins to Enter a Normal Pig -- 2.4.2 Mycotoxin Effect on Pigs |

and Its Associated Signs and Symptoms -- 2.5 Mycotoxins in Poultry --
2.5.1 Factors That Cause Mycotoxins to Enter in Healthy Poultry --
2.5.2 The Effect of Major Mycotoxins on Poultry -- 2.5.2.1 Aflatoxins
-- 2.5.2.2 Ochratoxins -- 2.5.2.3 Fumonisin -- 2.5.2.4
Trichothecenes -- 2.5.3 Diagnosis -- 2.5.4 Treatment -- 2.6
Mycotoxins in Cattle -- 2.6.1 The Effect of Major Mycotoxins in Cattle
-- 2.6.2 Aflatoxins -- 2.6.3 Deoxynivalenol -- 2.6.4 T-2 Toxin --
2.6.5 Fumonisin B1 -- 2.6.6 Diagnosis and Treatment -- 2.7
Prevention and Control -- 2.7.1 Primary Prevention -- 2.7.2 Secondary
Prevention -- 2.7.3 Tertiary Prevention -- 2.8 Legal Disposition -- 2.9
Conclusion.
References -- Web Link Reference -- Chapter 3: Candidiasis
and Dermatophytosis: Infections and Their Prevention -- 3.1
Candidiasis -- 3.1.1 Introduction -- 3.1.2 Types of Candidiasis --
3.1.2.1 Genital Candidiasis -- 3.1.2.2 Intrauterine Candidiasis --
3.1.2.3 Anal Candidiasis -- 3.1.2.4 Nail Candidiasis -- 3.1.2.5 Oral
Candidiasis -- 3.1.3 Predisposing Factors -- 3.1.4 Diagnosis -- 3.1.5
Signals and Symptoms -- 3.1.6 Prevention -- 3.1.6.1 Alternative
Treatment -- 3.2 Dermatophytosis -- 3.2.1 Treatment -- 3.2.2
Communicability -- 3.2.3 Diagnostic Tests -- 3.3 Prevention -- 3.4
Conclusion -- References -- Chapter 4: Application of Systems Biology
Approaches for Host-Fungal Interaction in Animals -- 4.1 Introduction
-- 4.2 Systems Biology of Infection -- 4.3 Data in Systems Biology
and Analysis -- 4.3.1 Omics-Based Data -- 4.3.1.1 Genomics --
4.3.1.2 Transcriptomics -- 4.3.1.3 Proteomics -- 4.3.2 Image-Based
Data -- 4.4 Modeling -- 4.4.1 Network Modeling -- 4.4.1.1 Gene
Regulatory Network -- 4.4.1.2 Protein-Protein Interaction (PPI) Network
-- 4.4.1.3 Signaling Network -- 4.4.1.4 Metabolic Network -- 4.5
Conclusion and Future Implications -- References -- Chapter 5: Ovine
Fungal Diseases -- 5.1 Principal Ovine Fungal Diseases -- 5.1.1
Phaeohiphomyces -- 5.1.2 Candidosis -- 5.1.3 Cryptococcosis --
5.1.4 Malasseziosis -- 5.1.5 Rhodotorulosis -- 5.1.6
Conidiobolomycosis -- 5.2 Conclusion -- References -- Chapter 6:
Histopathologic Diagnosis of Fungal Infections of Lab Animals -- 6.1
Common Fungal Infections in Lab Animals -- 6.2 Histopathology
in Diagnosis of Fungal Diseases -- 6.2.1 Histopathologic Diagnosis
of Dermatophytosis -- 6.2.2 Histopathologic Diagnosis of Systemic
Mycoses -- 6.2.3 Role of Histochemical Stains in Fungal Diagnosis --
6.3 Common Fungal Infections in Rats/Rabbits/Guinea Pigs and Their
Diagnosis.
6.4 Common Fungal Infections in Cattle and Their Diagnosis -- 6.5
Common Fungal Infections in Swine and Their Diagnosis -- 6.6
Common Fungal Infections in Birds and Their Diagnosis -- 6.7
Common Fungal Infections in Reptiles and Their Diagnosis -- 6.8
Common Fungal Infections in Amphibians and Their Diagnosis -- 6.9
Common Fungal Infections in Invertebrates and Their Diagnosis -- 6.10
Conclusion -- References -- Chapter 7: Current Perspective
of Dermatophytosis in Animals -- 7.1 Introduction -- 7.2 Etiological
Agents and Taxonomy -- 7.2.1 Morphology -- 7.2.1.1 Membranous
Form -- 7.2.1.2 Filamentous Form -- 7.2.1.3 Granular-Powdery Form
-- 7.3 Epidemiology -- 7.4 Cultural Characteristics -- 7.5
Transmission -- 7.6 Pathogenesis -- 7.7 Laboratory Diagnosis -- 7.7.1
Wood's Lamp -- 7.7.2 Direct Visualization Under the Microscope --
7.7.3 Molecular Methods -- 7.8 Treatment -- 7.9 Conclusion
and Future Prospects -- References -- Chapter 8: Fungal Diseases
and Therapy in Dogs -- 8.1 Aspergillosis -- 8.2 Canine Sinonasal
Aspergillosis (SNA) -- 8.3 Disseminated Canine Aspergillosis (DCA) --
8.4 Bronchopulmonary Aspergillosis -- 8.5 Dermatophytosis -- 8.6

Blastomycosis -- 8.7 Histoplasmosis -- 8.8 Rhinosporidiosis -- 8.9 Sporotrichosis -- 8.10 Geotrichosis -- 8.11 Phaeohyphomycosis -- 8.12 Treatment Methods -- 8.12.1 Aspergillosis -- 8.12.2 Dermatophytosis -- 8.12.3 Blastomycosis -- 8.12.4 Histoplasmosis -- 8.12.5 Rhinosporidiosis -- 8.12.6 Sporotrichosis -- 8.12.7 Geotrichosis -- 8.12.8 Phaeohyphomycosis -- 8.13 Conclusion -- References -- Chapter 9: Improving Animal Immunity to Prevent Fungal Infections with Folk Remedies and Advanced Medicine -- 9.1 Introduction -- 9.2 Nature Preserves Genes -- 9.3 Why Fungi Are Different -- 9.3.1 Fungal Cell Wall -- 9.3.2 Fungal Toxins and Allergic Responses -- 9.4 Fungal Therapy -- 9.5 Fungal Entry to Host. 9.5.1 Fungi Infiltration to the Epithelial Surfaces -- 9.5.2 Fungal Attachment -- 9.6 The Efficacy of the Immune System -- 9.6.1 Folk Practices -- 9.6.1.1 Reactivating Animal Health -- 9.6.2 Infection, Susceptibility, or Both -- 9.6.2.1 Turning the Opportunistic Pathogens into Lazy Microbes -- 9.6.2.2 Put Sugar Between Your Toes -- 9.6.2.3 The Fungal Smart Invasion -- 9.6.3 Interactions Between Fungal Pathogens and the Immune System -- 9.6.4 Infection or Susceptibility, which one is more climed? -- 9.6.5 Immunity Building -- 9.7 Folk Remedies for Animal Immunizations -- 9.7.1 Save the Young Turkeys -- 9.7.2 The immunized Hen -- 9.8 Innate Immunity -- 9.8.1 A. Sites Contributing to the Innate Immune System -- 9.8.1.1 Skin -- 9.8.1.2 Respiratory Tract -- 9.8.1.3 Genital-Urinary Tract -- 9.8.2 Cell Barriers -- 9.8.2.1 Epithelial Cells -- 9.8.2.2 Immune Cells -- 9.8.2.3 Neutrophils -- 9.8.2.4 Monocytes/Macrophages -- 9.8.2.5 DCs -- 9.8.2.6 NK Cells -- 9.9 Adaptive Immunity and Fungicidal Mechanisms of White Blood Cells -- 9.9.1 Sites Contributing to the Adaptive Immune System -- 9.9.1.1 Skin -- 9.9.1.2 Lung -- 9.9.1.3 Intestine -- 9.9.2 Cell-Mediated Host Response to Fungal Aggression -- 9.9.2.1 Characterization and Function of DC and Monocyte Subsets -- 9.9.2.2 Plasmacytoid DCs -- 9.9.2.3 Conventional DCs -- 9.9.2.4 Migratory DCs -- 9.9.2.5 Monocytes, Monocyte-Derived DCs, and Inflammatory DCs -- 9.10 Recognition, Signaling, and Other Forms of Interactions -- 9.10.1 PRRs -- 9.10.2 Regulatory T Cells -- 9.10.3 Dectin-1 -- 9.10.4 Dectin-2 -- 9.10.5 Mincle -- 9.10.6 Mannose Receptor (CD206) -- 9.10.7 Complement Receptor 3 -- 9.10.8 DC-SIGN -- 9.10.9 IL-17 Defenses -- 9.10.10 Th17 Immunity -- 9.10.11 Th1 Immunity -- 9.10.12 Th2 Immunity -- 9.10.13 Inflammasomes -- 9.10.14 T- and B-Cell Immunity -- 9.10.15 CD8+ T Cells -- 9.10.16 Humoral Immunity. 9.11 Fungal Ghosts -- 9.12 Plants Involved in Folk Fungal Treatments -- 9.13 Conclusion -- References -- Chapter 10: Antifungal Resistance in Animal Medicine: Current State and Future Challenges -- 10.1 Introduction -- 10.2 Antifungal Therapy in Animal Medicine -- 10.3 Antifungal Resistance: General Concepts and Study Methods -- 10.4 Antifungal Resistance in the Veterinary Setting -- 10.5 Future Challenges -- 10.5.1 Species-Level Identification of Animal Pathogenic Fungi -- 10.5.2 Establishment of Meaningful Breakpoints for Antifungal Resistance of Veterinary Isolates -- 10.5.3 Reduction of the Environmental Impact of Antifungal Use -- 10.6 Conclusion -- References -- Index.
