

1. Record Nr.	UNINA9910488694003321
Titolo	Digital health technology for better aging : a multidisciplinary approach [[electronic resource] /] / Giuseppe Andreoni and Cinzia Mambretti, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-72663-0
Descrizione fisica	1 online resource (364 pages)
Collana	Research for Development
Disciplina	618.9700285
Soggetti	Medical technology - Social aspects Aging Management science Persones grans Assistència sanitària Envelliment de la població Tecnologia mèdica Condicions socials Qualitat de vida Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Preface -- Contents -- Older Persons in Europe 2020: Needs and Challenges for an Interdisciplinary Polytechnic Approach -- 1 Ageing in Europe 2020 -- 2 Status, Needs and Challenges for the Design and Implementation of Effective Active Healthy Ageing Solutions -- 3 A Polytechnic Approach to Design of Intuitive and Integrated AHA Services: The NESTORE Case Study -- References -- Designing mHealth Solutions for Better Ageing: Clinical and Methodological Perspective -- The Multi-domain Coaching Approach to Counteract Ageing Decline -- 1 Introduction -- 2 General Framework for the Design of the NESTORE Coaching Plans -- 3 Physical Activity -- 4 Nutrition -- 5 Cognitive Status and Social Behaviour -- 6

Conclusions -- References -- Found in Translation: Innovative Methods of Co-design in the Development of Digital Systems for Promoting Healthy Aging -- 1 Introduction -- 1.1 Aims of the Research -- 1.2 Methods of Engagement -- 2 Design of the Research -- 3 Methods -- 4 The Study -- 4.1 Phase One -- 4.2 User Workshop Findings -- 4.3 Phase Two -- 4.4 Analysis of Phase One and Two -- 5 Transferability of User Requirements to Technologists -- 5.1 Digital Probes -- 5.2 Personas -- 5.3 Pathways -- 5.4 Co-designing the Tangible Coach -- 6 Discussion and Conclusion -- References -- Technology Applied to Solutions for Healthy Ageing -- Monitoring in the Physical Domain to Support Active Ageing -- 1 Design Requirements and Guidelines -- 2 Wearable Wristband Architecture Overview -- 2.1 Industrial Design and User Interface Solution -- 2.2 Technology Selection -- 2.3 Wristband Mechanical Description -- 2.4 Mechanical Drawing for Charging Station -- 2.5 Hardware Solution -- 2.6 Charging Station -- 3 Environmental Sensors for Physical Activity -- 3.1 BLE Beacons -- 3.2 Ballistocardiography -- 3.3 Smart Scale -- 4 Firmware Solution -- 4.1 For the Beacons. 4.2 For the Smartphone -- 4.3 Data Management -- References -- Nutritional Monitoring in Older People Prevention Services -- 1 Introduction -- 2 Related Works -- 2.1 Nutrition Monitoring Systems -- 2.2 Food Recognition -- 3 LogMeal-A Food Intake Monitoring Tool Integrated in the NESTORE Platform -- 3.1 Production Environment -- 3.2 Development Environment -- 3.3 LogMeal Integration into NESTORE -- 4 Constructing LogMeal Food Dataset -- 4.1 Public Food Datasets -- 4.2 Food Hierarchy -- 4.3 The Dataset Construction -- 4.4 Nutritional Food Composition of Recipes -- 4.5 Nationality -- 4.6 API Images -- 5 System Validation -- 5.1 Performance Insights During Development -- 5.2 Performance Insights During Production -- 6 Conclusions -- References -- Social Behaviour and Cognitive Monitoring in Healthy Ageing -- 1 Introduction -- 2 Monitoring of Social Behaviour in NESTORE -- 2.1 Self-reported Social Integration and Behaviour -- 2.2 Sensor-Based Social Behaviour Assessments -- 3 Monitoring of Cognitive Functioning in NESTORE -- 3.1 Assessing Cognitive Status at Baseline and Posttest -- 3.2 Assessing Cognitive Performance Throughout the Coaching Phase -- 4 Conclusion -- References -- Perspective and Experiences of Decision Support Systems (DSS) and AI in Prevention and Care for Older Adults -- 1 Introduction -- 2 DSS Design in Healthcare: The Importance of Experts' Involvement -- 3 Methods to Build a Robust DSS -- 3.1 Preventing the Cold-Start Problem -- 3.2 Harmonisation and Integration -- 3.3 AI Technologies Present in DSSs Approaches -- 4 NESTORE DSS as a Whole -- 4.1 Target Variables and Data Sources -- 4.2 Architecture and Derived Workflows -- 4.3 Data Analysis Pipelines -- 4.4 Validation -- 5 Conclusion -- References -- System Interoperability for Next Gen Services at Home. A Challenge/Opportunity for Integration -- 1 Introduction. 2 Requirements of Interoperable Environments -- 3 Interoperable Technologies -- 4 Challenges and Opportunities for a Seamless Integration -- 5 Conclusions -- References -- Lifestyle Improvement and Virtual Coaching and ICT Services in the Human Domains Through Friendly Technology -- Physical Activity Promotion and Coaching to Support Healthy Ageing -- 1 Introduction -- 2 Overview of NESTORE Coaching System in Physical Activity Domain -- 3 Coaching Personalisation and Implementation Strategies -- 4 NESTORE Technological Solutions for the Physical Activity Domain -- 5 Conclusions -- References -- Coaching Older Adults Towards a Healthier Lifestyle: Psychological and Technological Methods -- 1

Introduction -- 2 Theoretical Behaviour Change Models in Health Psychology -- 3 Behaviour Change Techniques and General Coaching Strategies for Health and Well-Being -- 4 Health-Related e-Coaching and Digital Intervention Strategies -- 5 e-Coaching in NESTORE -- 6 Conclusion -- References -- Understanding Older Adults' Affect States in Daily Life for Promoting Self-reflection About Mental Wellbeing -- 1 Introduction -- 2 The Affective Dimension -- 2.1 Beyond Basic Emotions: Love, Grief and Positive Affect -- 2.2 Sentiment Analysis for Emotion Recognition -- 3 Emotions and the NESTORE e-Coach -- 4 Emotional Wellbeing Recognition in the NESTORE System -- 4.1 Implementation of the Emotion Engine -- 5 Discussion and Future Work -- References -- Building Trust and Companionship in e-Coaching Through Embodiment -- 1 Introduction -- 2 Background on Tangible Conversational Agents in Increasing Trust and Companionship -- 3 Design Process Method -- 4 NESTORE Tangible Coach Co-design -- 4.1 Preliminary Designs -- 5 Conclusion -- References -- Challenges, Limitations and Methodologies to Be Applied in the Development of an ICT-Based Intervention for Older People.

1 Introduction -- 2 Data and Methods -- 2.1 Integration of the Recruitment Strategies -- 3 Results -- 3.1 Building Trust -- 3.2 Identify Individual Barriers -- 3.3 Offer Incentives -- 3.4 Be Responsive -- 3.5 Identified Barriers -- 4 Conclusions -- References -- Innovation Impact Measured in Subjective (Usability and Experience), Social (Community Level) and Business (Companies and Institutions) Opportunities -- Practicing the Test of New System-Services for Elderly Care: How to Introduce and Measure User Experience and Related Outcomes -- 1 Introduction -- 2 HCD Approach in Designing Interactive System-Services for Elderly -- 3 Nestore Experience of Use -- 4 Integrated Framework for the Evaluating Nestore Experience of Use -- 5 Conclusions -- References -- SROI Methods for Impact Assessment in Economy of Wellbeing -- 1 Introduction -- 2 Methodology for the Calculation of SROI of Virtual Coaches Fostering Healthy Ageing -- 3 Results -- 4 Discussion -- 5 Theoretical and Managerial Contribution -- 6 Limitations and Further Development -- References -- Building a Network Around Wellbeing Services that Empower Older Adults -- 1 Every Pathway to Ageing Counts -- 2 The NESTORE Community -- 3 Empowering Means also Avoiding Self-induced Ageism -- 4 Conclusions -- References -- Exploitation, Dissemination, and Communication: An Integrated Framework in EU Research -- 1 Introduction -- 2 The Empirical Context and Research Design -- 3 An Integrated Conceptual Framework for Setting an Effective Exploitation and Dissemination Strategy -- 4 Discussion and Conclusions -- References -- Aspects of Ethics and Data Management in Healthy Ageing Digital Services -- Data Treatment in Complex Research Studies in Light of the GDPR Rules. A Critical Analysis -- 1 Introduction -- 2 The Data Protection Impact Assessment (DPIA) -- 3 The Data Sharing Agreement (DSA). 4 The Informed Consent -- 5 Conclusions -- References -- Ethical, Legal and Societal Issues of Research and Innovation in NESTORE -- 1 Introduction -- 2 Autonomy, Information and Informed Consent -- 3 Personal Data Protection in Digital Environments -- 4 Ethics and Research Integrity -- 5 Responsible Research and Innovation -- References -- From Research to Action: What's Next? -- Other Advanced Research Initiatives in Elderly Care and Fragility Prevention -- 1 Introduction -- 2 Technology for Aging in Place: The CAPTAIN Solution as an Answer to Existing Challenges -- 2.1 Challenges on Technology Supported Active and Healthy Ageing in Place -- 2.2 The CAPTAIN Vision and Solution -- 2.3 Design and Development

Methodology -- 2.4 Envisaged Impact -- 2.5 Towards Business Exploitation of CAPTAIN -- 3 Council of Coaches promotes elderly health -- 3.1 Engagement with Supporting Technologies Is the Challenge for Healthy Ageing e-Coaches -- 3.2 A Vision of Collaborative Coaches -- 3.3 The COUCH Web Application Design -- 3.4 The Envisaged Impact of COUCH Solution -- 3.5 Exploitation Strategies for COUCH -- 4 The Empathic Promotion of a Satisfying and Independent Lifestyle -- 4.1 Social Challenges and Innovation Opportunities to Support Elderly Independency and Wellbeing -- 4.2 Vision of the EMPATHIC Project -- 4.3 Main Concepts and Outcomes of EMPATHIC Project -- 4.4 Expected Impact of EMPATHIC Project -- 4.5 Exploitation of the Results and Concluding Remarks -- 5 The Solutions of HOLOBALANCE to Manage Equilibrium Disorders -- 5.1 Challenges in Active and Healthy Ageing -- 5.2 The HOLOBALANCE Vision in Ageing and Healthcare -- 5.3 The Proposed Solution for AHA by HOLOBALANCE -- 5.4 The Expected Impact for HOLOBALANCE Project -- 5.5 The Proposed Exploitation Model for HOLOBALANCE Solutions -- 6 The Multimodal Coaching of SAAM Project.
6.1 What Are the Challenges on Aging and Healthcare for Europe in 2030?.
