

1. Record Nr.	UNINA9910488721203321
Titolo	Breast and gynecological diseases : role of imaging in the management // Mahesh K. Shetty, editor
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-69476-3
Descrizione fisica	1 online resource (507 pages)
Disciplina	618.19
Soggetti	Breast - Diseases - Imaging Generative organs, Female - Diseases - Imaging Mama Imatges mèdiques Ecografia ginecològica Malalties de l'aparell genital femení Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Foreword -- Foreword -- Preface -- Contents -- Contributors -- 1: Imaging the Symptomatic Breast in the Pediatric, Young, Pregnant, Lactating, and Transgender Patient -- Imaging of the Breast During Pregnancy and Lactation -- Imaging of the Breast in the Teenage and Transgender Population -- Breast Cancer in Young Women -- Case 1 -- Case 2 -- Case 3 -- Bibliography -- 2: Imaging of the Symptomatic Breast -- Palpable Abnormalities of the Breast -- Nipple Discharge -- Symptoms Related to Nipple Areola Complex -- Breast Pain -- Inflammatory Breast Carcinoma (IBC) -- Symptoms Associated with Breast Implant Complications -- Axilla -- Non- tumorous Axillary Masses -- Bibliography -- 3: Imaging of the Symptomatic Male Breast -- Introduction -- Embryology and Anatomy of the Male Breast -- Imaging the Male Breast -- Mammography -- Ultrasound -- Breast Magnetic Resonance Imaging -- Breast Interventional Procedures -- Benign Diagnoses -- Gynecomastia -- Pseudogynecomastia -- Lipoma -- Intramammary

Lymph Node -- Pseudoangiomatous Stromal Hyperplasia -- Epidermal Inclusion Cyst -- Granulomatous Mastitis -- Subareolar Abscess -- Myofibroblastoma -- Nodular Fasciitis -- Granular Cell Tumor -- Hemangioma -- Male Breast Cancer -- Invasive Ductal Carcinoma -- Papillary Carcinoma -- Invasive Lobular Carcinoma -- Summary -- References -- 4: Management of a Woman at Elevated Risk for Breast Cancer -- Introduction -- Identification of the High-Risk Patient -- Hereditary Cancer -- Review -- Under-recognition: The Scope of the Problem -- Benign Atypical Lesions -- ADH/ALH/LCIS and FEA -- Breast Density -- Therapeutic Irradiation -- Risk Modeling -- Gail Model -- Tyrer-Cuzick Model -- Barlow/Breast Cancer Surveillance Consortium -- Claus -- BRCAPRO -- BOADICEA/CanRisk -- Discussion and Clinical Implementation -- Polygenic Risk Score -- Risk Management.

Imaging in High-Risk Patients -- Screening Mammography: Special Challenges -- Choosing the Modality: Digital Mammography Versus Digital Breast Tomosynthesis -- NCCN Criteria for Screening MRI -- ACR Criteria for Screening MRI in Breast Cancer Survivors -- FAST/Abbreviated MRI -- Other Modalities: Ultrasound, Contrast Enhanced Mammography, BSGI, and MBI -- Future Directions in Breast Imaging -- Interesting Cases -- Case 1 -- Case 2 -- Case 3 -- Chemoprevention -- Tamoxifen and Raloxifene -- NSABP P-1 Study: The Breast Cancer Prevention Trial -- STAR Trial -- Low-Dose Tamoxifen -- Exemestane -- Anastrozole -- Risk-Reducing Surgery -- Breast Reconstruction -- Psychological Assessment and Counseling -- Lifestyle Modifications -- Modifiable Risk Factors -- BMI/Exercise -- Alcohol -- Breastfeeding -- Menopausal Hormone Therapy -- What About Contraception? -- Conclusion -- References -- 5: The Multidisciplinary Approach to Breast Cancer Management -- Introduction -- General Considerations -- Preoperative Multidisciplinary Management -- Intraoperative Multidisciplinary Management -- Postoperative Multidisciplinary Management -- Management of Ductal Carcinoma In Situ -- Key Clinical Trials -- Ongoing Trials -- Selection of Surgical Therapy -- Breast-Conserving Surgery or Mastectomy -- Axillary Staging -- Surgical Technique -- Breast-Conserving Surgery -- Mastectomy -- Radiation Therapy -- Adjuvant Tamoxifen -- Management of Early-Stage Breast Cancer -- Key Clinical Trials -- Trials Comparing BCT and Mastectomy -- Axillary Staging -- Selection of Surgical Therapy of the Primary Tumor -- BCT or Mastectomy -- Breast Reconstruction After Mastectomy -- Management of the Regional Lymph Nodes -- Surgical Techniques -- Breast-Conserving Surgery -- Mastectomy -- Axillary Lymph Node Surgery -- Radiation Therapy -- Systemic Therapy.

Management of Locally Advanced Breast Cancer -- Selection of Surgical Therapy -- Surgical Techniques -- Breast-Conserving Surgery -- Mastectomy -- Axillary Lymph Node Dissection -- Targeted Axillary Lymph Node Dissection -- Radiation Therapy -- Systemic Therapy -- Surveillance for Breast Cancer Patients Who Have Completed Curative Treatment -- Guidelines for Follow-Up After Breast Cancer Treatment -- Actual Practice Patterns -- NCCN Guidelines for Breast Cancer Survivors -- References -- 6: Screening for Breast Cancer -- Early Detection of Breast Cancer with Mammography: Benefits and Harms -- Mammographic Signs of Breast Cancer -- Uncommon Mammographic Signs of Breast Cancer -- Optimizing Mammographic Interpretation -- Mammography Quality Standards Act (MQSA) Mandated Mammography Audit -- Screening Mammography Guidelines for Women at an Average Risk for Breast Cancer -- Digital Breast Tomosynthesis (DBT) -- Bibliography -- 7: Emerging Technologies in Breast Cancer Screening

and Diagnosis -- Supplemental Screening -- Personalized Risk-Based Screening -- Functional Imaging: CE-MRI, CE-Mammography (CEM), and CE-CBCT -- Contrast-Enhanced MRI (CE-MRI) -- Contrast-Enhanced Mammography (CEM) -- Contrast-Enhanced Cone-beam Breast CT (CE-CBCT) -- Artificial Intelligence -- References -- 8: Pelvic Pain: Role of Imaging in the Diagnosis and Management -- Acute Pelvic Pain -- Imaging Techniques in the Evaluation of a Patient with Acute Pelvic Pain -- Computed Tomography (CT) -- Gynecological Causes of Acute Pelvic Pain -- Adnexal Causes of Acute Pelvic Pain -- Simple Ovarian Cysts -- Hemorrhagic Ovarian Cyst -- Imaging in Ovarian Torsion -- Pelvic Inflammatory Disease (PID) -- Ovarian Venous Thrombosis -- Uterine Causes of Acute Pelvic Pain -- Hematometra -- IUD Complications -- Fibroids -- Spontaneous Abortion (SAB). Non-gynecological Causes of Acute Pelvic Pain -- Gastrointestinal Causes of Acute Pelvic Pain -- Anatomy and Technical Aspects of Ultrasound Assessment of the Bowel -- Acute Appendicitis -- Secondary Appendicitis -- Acute Diverticulitis -- Omental Infarction -- Epiploic Appendagitis -- Small Bowel Ischemia and Hemorrhage -- Groin Hernias -- Genitourinary Causes of Acute Pelvic Pain -- Distal Ureteral Calculus -- Cystitis -- Ectopic Pregnancy -- Ultrasound Imaging in Ectopic Pregnancy -- Differential Diagnosis -- Uncommon Location of Ectopic Pregnancies -- Interstitial Ectopic Pregnancy -- Cervical Pregnancy -- Intramural Pregnancy -- Heterotopic Pregnancy -- Ovarian Ectopic Pregnancy -- Cesarean Scar Pregnancy -- Role of MRI in Ectopic Pregnancy -- Posttreatment Imaging -- Chronic Pelvic Pain -- Chronic PID -- Endometriosis -- Introduction -- Diagnosis and Imaging in Endometriosis -- Ultrasonography -- Magnetic Resonance Imaging (MRI) -- MR Imaging Features -- Endometriosis of the Ovaries -- Extraovarian Endometriosis -- Deep Invasive Endometriosis (DIE) -- Endometriosis and Malignancy -- Abdominal Scar Endometriosis -- Conclusion -- References -- 9: Imaging of Abnormal Uterine Bleeding and Menstrual Disorders -- Introduction -- The Menstrual Cycle -- The Hypothalamic-Pituitary-Ovarian Axis -- The Ovary: Follicular Phase and Luteinizing Phase -- The Endometrium: Proliferative Phase and Secretory Phase -- Imaging Modalities -- Ultrasound -- MRI -- Hysteroscopy -- Pregnancy -- Miscarriage -- Ectopic Pregnancy -- Molar Pregnancy -- Polyps -- Imaging Modalities -- Transvaginal Ultrasonography -- Color Flow Doppler -- Saline Infusion Sonography -- Hysteroscopy, Biopsy, and Endometrial Polypectomy -- Adenomyosis -- Imaging Modalities -- Ultrasonography -- Magnetic Resonance Imaging -- Management -- Leiomyoma -- Imaging Modalities -- Ultrasonography. Hysteroscopy -- Magnetic Resonance Imaging -- Management -- Myomectomy -- Uterine Artery Embolization -- Malignancy and Hyperplasia -- Endometrial Cancer -- Ultrasound -- MRI -- Cervical Cancer -- Coagulopathies -- Von Willebrand Disease -- Acquired Coagulopathies -- Ovulatory Dysfunction -- Hyperprolactinemia -- Hypothalamic Dysfunction -- Hypothyroidism -- Imaging -- Endometrial -- Diagnosis -- Ultrasound -- MRI -- Management -- Iatrogenic -- IUD -- Chemotherapy Agents and Steroid Hormones -- Not Yet Classified -- Pelvic Inflammatory Disease -- Imaging -- Ultrasound -- Magnetic Resonance Imaging -- Laparoscopy -- Vaginal Trauma -- Foreign Bodies -- Conclusion -- References -- 10: Non-obstetric Complications in Pregnancy: Role of Imaging -- Radiation Risk Considerations from the Use of Diagnostic Imaging in Pregnancy -- Pathogenesis of the Diagnostic Radiation Exposure Risks to the Fetus -- Pathological Effects of Exposure of the Human Embryo to Ionizing Radiation -- All or None Phenomenon -- Congenital

Malformation and Growth Retardation -- Neurobehavioral Effects --
Effects of Protraction and Fractionation -- Indirect Exposure
to Radiation -- Increased Risk of Leukemia and Other Malignancies --
Maternal Risk from Radiographic Examination -- Counseling a Pregnant
Patient Regarding Risk of Being Exposed to Diagnostic Radiation --
Screening for Pregnancy Prior to Radiological Examinations --
Pregnancy Consent Policy -- Methods to Reduce Radiation Dose --
Management of the Patient Not Known to Be Pregnant During
the Examination -- Ultrasonography Imaging in Pregnancy --
Computed Tomography in Pregnancy -- Magnetic Resonance Imaging
in Pregnancy -- Imaging in the Evaluation of Non-obstetrical
Complications in Pregnancy -- Common Indications -- Evaluation
of a Pelvic Mass in Pregnancy -- Ultrasound in the Assessment
of a Pelvic Mass.
MRI Evaluation of an Adnexal Mass.
