

1. Record Nr.	UNINA9910488722703321
Titolo	Proceedings of the First International Workshop on Intelligent Software Automation : ISEA 2020 / / edited by Sajid Anwar, Abdul Rauf
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2021
ISBN	981-16-1045-2
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (72 pages) : illustrations (some color)
Collana	Advances in Intelligent Systems and Computing, , 2194-5365 ; ; 1347
Disciplina	629.892
Soggetti	Computational intelligence Artificial intelligence Automation Computational Intelligence Artificial Intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. A Three-way decision-making approach for Customer Churn prediction using Game-Theoretic Rough sets -- Chapter 2. QAEExtractor: A Quality Attributes Extraction Framework in Agile-based Software Development -- Chapter 3. Automated Classification of Mobile App Reviews considering User's Quality Concerns -- Chapter 4. Cost and Makespan-Centric Task Scheduling in a Heterogeneous Cloud Computing Environment using Whale Optimization Algorithm (WOA) -- Chapter 5. Analyzing GoLang Projects' Architecture using Code Metrics and Code Smell.
Sommario/riassunto	This book is a collection of research papers presented at the International Workshop on Intelligent Software Engineering Automation (ISEA 2020) in the 27th Asia-Pacific Software Engineering Conference (APSEC 2020), during 1–4 December 2020 in Singapore. The book discusses automated tools and techniques which are required to reflect over business knowledge to identify what is missing or could be effectively changed while producing and evolving. The book presents works from international researchers and practitioners in the fields of intelligent software engineering/automated software engineering to discuss applications, experiences, and emerging advanced techniques.
