

1. Record Nr.	UNINA9910488724903321
Titolo	Advances in safety management and human performance : proceedings of the AHFE 2021 virtual conferences on safety management and human factors, and human error, reliability, resilience, and performance, July 25-29, 2021, USA // Pedro M. Arezes and Ronald L. Boring, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-80288-4
Descrizione fisica	1 online resource (347 pages)
Collana	Lecture Notes in Networks and Systems ; ; v.262
Disciplina	363.11
Soggetti	System safety Industrial safety - Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Advances in Human Factors and Ergonomics 2021 -- Preface -- Contents -- Resilience and Human Performance -- Examination of Design and Human Factors Supporting Sensemaking, Resilience and Performance in the Ship Accident Helge Ingstad in Norway -- 1 Introduction -- 2 Key Definitions, Approach and Methods -- 2.1 Approach and Methods -- 3 The Timeline of the Accident -- 4 Evaluation of Design Issues -- 5 Conclusions - Support of Sensemaking -- References -- Trait Interindividual Differences in the Effectiveness of Modafinil -- 1 Introduction -- 2 Methods -- 2.1 Participants -- 2.2 Experimental Protocol -- 2.3 Statistical Analysis -- 3 Results -- 3.1 Modafinil and Cognitive Performance -- 3.2 Modafinil and Psychological State -- 3.3 Interindividual Difference in Modafinil-Effectiveness -- 4 Discussion -- 4.1 Modafinil and Human Functioning -- 4.2 Interindividual Difference in Modafinil-Effectiveness -- 5 Conclusion -- References -- Improvement of Workflow Structure to Prevent Human Error -- 1 Introduction -- 2 Protection of Testability of Each Units from Interferences of Other Activities -- 3 Utilization of Prefabrication: Conservation of Partial Achievement -- 4 Fixation of Execution Order -- 5 Conclusion -- References -- Building a Trojan

Horse: Third Phase in the Experiment/Research with City Information Modeling (CIM) and the Design Ethics -- 1 Introduction -- 2 An Ancient Greek Tale as a Research Concept - Third Step (Of Ten) -- 3 Methodology -- 4 City Information Modelling -- 5 Applied Research: History and Historiography -- 6 Generative Online Semantic Tool -- 7 Discussion -- 8 Conclusion -- References -- Symbolic Context Model for Resilience Engineering -- 1 Introduction -- 2 Context -- 3 Symbolic Context Model -- 3.1 Atomic Formulas: Entities, Events, and States -- 3.2 Set of Entities, Events, and States and Quantifiers. 3.3 Roles and Cognitive States -- 3.4 Logical Connectives -- 3.5 Observer's Cognitive State -- 4 Situation Awareness in Context Model -- 5 Resilience Engineering in Context Model -- 5.1 Safety-I and Safety-II -- 5.2 Resilience -- 6 Conclusion -- References -- Human Reliability Analysis -- Identification of Performance Shaping Factors Affecting Subsequent Human Actions for Dependence Assessment in Human Reliability Analysis -- 1 Introduction -- 2 Fundamental Approach to PSF-Based Dependency Method -- 2.1 Existing Dependency Methods -- 2.2 PSF-Based Dependency Method -- 3 Development of the PSF-Based Dependency Method -- 3.1 Step #1: Identification of HFE Sequence Depending on Initiating Events -- 3.2 Step #2: Screening Analysis for Dependency Candidates -- 3.3 Step #3: Application of Mathematical Model and If-Then Logic -- 4 Future Work -- References -- Is Dependency in Human Reliability Analysis a Real Phenomenon? Refining the Dependency Concept Through Research -- 1 Introduction -- 2 Types of Dependency and Their Impacts -- 3 Dependency as a Construct -- 4 Dependency in HRA-Conservative Assessment of Risk -- 5 Discussion and Next Steps -- References -- Formative vs. Summative Dependence in Human Reliability Analysis -- 1 Introduction -- 2 Dependence Calculation -- 3 Formative Dependence -- 4 Conclusions -- References -- Human Error of a System Based on FMEA -- 1 Introduction -- 2 Overall Design -- 3 Case Study -- 3.1 Sherpa -- 3.2 FMEA -- 3.3 FTA -- 3.4 Design Improvement -- 3.5 Result Verification -- 4 Conclusion -- References -- Challenges and Opportunities of Applying the Human Reliability Analysis (HRA) Techniques for the Petrochemical Industry in China -- 1 Introduction -- 2 Methodology -- 3 Questionnaire Survey -- 3.1 Data Collection -- 3.2 Data Analysis -- 4 Conclusion -- References. Human Error, Reliability, Resilience, and Performance in Aviation -- Is Our Human Factors Capability in Aviation and Maritime Domains Up to the Task? -- 1 Introduction -- 2 The Human Performance Capability Profiling (HPCP) Approach for SAFEMODE -- 2.1 HPSoE: Key Concepts -- 2.2 The HPCP Framework -- 3 The Assessment Process -- 4 Results -- 4.1 Overall Maturity in Aviation and Maritime -- 4.2 Aviation -- 4.3 Maritime -- 4.4 Cross-Domain Insights from the HPCP Exercise -- Flying High. Voice Stress Analysis to Detect Pre-symptomatic Acute Hypobaric Hypoxia at 25000 Ft -- 1 Introduction -- 2 Method -- 2.1 Subjects -- 2.2 Materials -- 2.3 Procedure -- 2.4 Speech Analysis -- 2.5 Statistical Analysis -- 3 Results -- 4 Discussion -- References -- Human Factors Analysis for a New Wake Vortex Air Traffic Alert -- 1 Introduction -- 2 HUman Risk-Informed Design (HURID) Framework -- 3 Wake Turbulence Aviation Risk -- 4 Wake Alerting Concept -- 5 HF Analysis -- 5.1 Analysing the Human Factors in Wake Turbulence Occurrences -- 5.2 Task Analysis -- 5.3 HMI Design -- 6 Human Assurance Validations -- 7 Conclusions -- References -- Organizational Effects on Human Performance -- How Many Human Factors Influenced the June 30, 2013, Yarnell Hill Fire 19 Fatalities and Yet Were Never Investigated Nor Documented? -- 1 Introduction -- 1.1 Background -- 1.2 Motivation -- 2 The Sesame Street and Shrine

Fuel/Fire Break Corridor Area(s) Firing Operations -- 3 Wildland Firefighting Rules - Human Factors, Human Errors, and Human Failures -- 3.1 Willingness to Properly Refuse Risk and Turn Down Protocol -- 3.2 Plan continuation Bias -- 3.3 Steady Drift Into Failure Via Bad Decisions With Prior Good Outcomes -- 3.4 Consequences of Inattention as Causal Factor -- 3.5 Tunnel Vision and Auditory Exclusion -- 3.6 Groupthink -- 3.7 Destructive Goal Pursuit -- 3.8 Friendly Fire.

4 USDA USFS and OGC Employee "Direction" and "Guidance" -- 4.1 Obstructive Touhy Regulations and the Federal Housekeeping Statute -- 4.2 USDA USFS Blue Ridge Hot Shot (BRHS) Crew and YH Fire Staff Ride -- 5 Conclusion and Recommendations -- References -- Continuous Stress and Consequence on C4t, Complexity, Risk, and Necessity of Leadership Level 5 -- 1 Introduction -- 2 Literature Review -- 3 A Story: Industry Task or Trip in Family? -- 4 SARS Methodology -- 5 Application: Oil and Gas, Chemical and Metallurgical Facility -- 6 Process Safety Leader 5, A History in Stressful Workstation -- 7 Conclusion -- References -- Professional Deformations of Bailiffs with Different Professional Efficiency -- 1 Introduction -- 2 Study Design -- 3 The Bailiffs' Professional Deformations with Different Professional Performance -- 3.1 The Bailiffs' Professional Deformations Types Severity -- 3.2 Analysis of the Bailiff's Professional Performance Subjective Assessment -- 3.3 The Bailiffs' Professional Deformity Types Feature with Low, Medium and High Professional Performance -- 4 Results Discussion -- 5 Conclusion -- References -- Digital Safety -- Short Circuiting the Controller - Missteps in Maintenance and Inspection of Process and Wiring in STS-93 -- 1 Introduction -- 1.1 Mission Objectives -- 1.2 July 20, 1999: Ready, Set... Cutoff? -- 1.3 July 22, 1999: Don't Rain on My Parade -- 1.4 July 23, 1999: Third Time's the Charm -- 2 Underlying Issues -- 2.1 Wiring -- 2.2 LOX Post Pin -- 3 Conclusion -- Appendix: SIAT Assessment -- References -- Machine Learning for Occupational Slip-Trip-Fall Incidents Classification Within Commercial Grain Elevators -- 1 Introduction -- 2 Materials and Methods -- 2.1 Data -- 2.2 Modeling Variables -- 2.3 Bootstrap Forest Machine Learning Classifier -- 2.4 Model Development and Performance Assessment -- 3 Results. 3.1 BF Classifier Performance -- 3.2 Sensitivity Analysis -- 4 Conclusion -- References -- Risk Exposure and Assessment -- Risk Assessment Knowledge Relating to Occupational Health and Safety Risks: A Case Study of Five Finnish Companies -- 1 Introduction -- 2 Methods and Materials -- 3 Results -- 4 Discussion -- References -- Experimental Comparison of CWA 17553:2020 Community Face Coverings to Surgical Masks and Filtering Facepiece Respirators -- 1 Introduction -- 2 Comparing Performance Requirements -- 3 Methods and Tested Materials -- 4 Results -- 5 Conclusion -- References -- Workplace Hazards Difficult to Identify and Manage -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Discussion -- References -- COVID-19 Prevention in Construction Sites: A Case Study in a Railway Project -- 1 Introduction -- 2 Methods -- 2.1 The Construction Site -- 2.2 Plan-Do-Check-Act Cycle -- 2.3 Job Safety Analysis -- 2.4 Documental Research and Free Observations -- 3 Results and Discussion -- 4 Conclusions -- References -- Risk Analysis Based on ETA, FTA and Bowtie Methodologies for the Bulk Coal Discharge Process -- 1 Introduction -- 2 The Case Study -- 3 Results -- 4 Conclusion -- References -- Safety Concerns in a Portuguese Chemical Industry: A Workers' Perspective -- 1 Introduction -- 2 Method -- 2.1 Context and Participants -- 2.2 Techniques and Procedure -- 3 Results -- 4 Discussion -- 5 Conclusion --
