| 1. Record Nr. | UNINA9910491031303321 |
| Autore | Jordaan Sarah Marie |
| Titolo | Wells to wire : life cycle assessment of natural gas-fired electricity // Sarah Marie Jordaan |
| Pubbl/distr/stampa | Cham, Switzerland : , : Springer, , [2021] ©2021 |
| ISBN | 3-030-71971-5 |
| Descrizione fisica | 1 online resource (124 pages) |
| Disciplina | 621.312132 |
| Soggetti | Gas power plants - Evaluation Product life cycle |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di contenuto | Intro -- Foreword -- Acknowledgements -- Contents -- 1 An Introduction to Life Cycle Assessment of Natural Gas-Fired Electricity -- Introduction -- Global Evolution of Natural Gas Production and Use in Electricity Generation -- Life Cycle Assessment as a Framework to Understand Environmental Impacts of Gas-Fired Power -- LCA Methodology -- What Will Be Covered in This Book -- Summary -- References -- 2 LCA Framework, Methods, and Application -- Introduction -- General Framework -- Goal and Scope Definition -- Inventory Analysis -- Impact Assessment -- Interpretation -- Conclusion -- References -- 3 The Denominator: Natural Gas Production, Throughput, and Electricity Generation -- Introduction -- Infrastructure Lifetime -- Natural Gas Extraction -- Facility Throughput -- Power Plant Operation -- Conclusions -- References -- 4 Life Cycle Impact Assessment -- Introduction -- Impact Categories and Characterization Models -- A Focus on Improving Individual Impact Categories -- Greenhouse Gas Emissions and Other Air Pollution -- Water Consumption -- Quantification of Life Cycle Land Use Impacts -- Conclusions -- References -- 5 Global Markets and Competitiveness of Gas-Fired Power -- Introduction -- Levelized Cost of Electricity -- The Economics of Natural Gas Production -- Production Costs -- Natural Gas Markets -- Additional Costs Associated with LNG -- Implications of LNG for Life Cycle Assessment of Gas-Fired Power -- |

Liquefaction to Power Plant -- Electricity Generation to End Use --
Conclusions -- References -- 6 Tackling Uncertainty Across the Life
Cycle of Gas-Fired Power -- Introduction -- Uncertainty in LCA -- Data
Sources, Precision, and Accuracy -- Probabilities -- Approaching
Uncertainty in LCA -- Monte Carlo Simulation -- Sensitivity Analysis --
Break-Even (Parametric) Analysis -- Scenario Analysis -- Conclusions
-- References.

7 Natural Gas as a Bridge Fuel? -- Introduction -- Compatibility
with Paris Agreement -- Political, Economic, and Technological
Uncertainties -- Future Research -- Conclusions -- References --
Index.
