Sommario/riassunto	Introduces a concept of economic warfare based on a comprehensive review of pertinent literature in the fields of international law and (geo) economics. Presents numerous case studies on the different dimensions of economic warfare - trade, investment, and finance - also including the US-Sino Trade War of 2018Deduces the corpus of regulation confining specific forms of economic warfare from the case studies in various fields of international law ("jus in bello oeconomico"). Finds that states have the right to resort to economic warfare ("jus ad bellum oeconomicum") that only prospectively may be challenged-- Publisher.
