Titolo	Money and totality : a macro-monetary interpretation of Marx's logic in Capital and the end of the 'transformation problem' // by Fred Moseley
Pubbl/distr/stampa	Leiden, Netherlands ; ; Boston, [Massachusetts] : , : Brill, , 2016 ©2016
ISBN	90-04-30193-3
Descrizione fisica	1 online resource (433 p.)
Collana	Historical Materialism Book Series, , 1570-1522 ; ; Volume 104
Disciplina	335.4/1
Soggetti	Capital Macroeconomics Marxian economics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Front Matter -- Introduction: A 'Macro-Monetary' Interpretation of Marx's Theory -- Algebraic Summary: A 'Macro-Monetary' Interpretation of Marx's Theory -- Marx's Theory of the Production and Distribution of Surplus-Value: The Prior Determination of the Total Surplus-Value -- The Circuit of Money Capital: M Presupposed -- Money Has No Price: Marx's Theory of Money and the Transformation Problem -- Standard Interpretations -- Shaikh's Iterative Interpretation -- The New Interpretation -- Temporal Single System Interpretation (TSSI) -- The Rethinking Marxism Interpretation -- The Organic Composition of Capital Interpretation -- Replies to Criticisms of My Macro-Monetary Interpretation -- Conclusion -- Bibliography -- Indexes.
Sommario/riassunto	This ambitious book presents a comprehensive new 'macro-monetary' interpretation of Marx's logical method in Capital , based on substantial textual evidence, which emphasises two main points: (1) Marx's theory is primarily a macroeconomic theory of the total surplus-value produced in the economy as a whole; and (2) Marx's theory is a monetary theory from beginning to end and the circuit of money capital – M - C - M' – is the logical framework of Marx's theory. It follows from

this 'macro-monetary' interpretation that, contrary to the prevailing view, there is no 'transformation problem' in Marx's theory; id est, Marx did not 'fail to transform the inputs of constant capital and variable capital' in his theory of prices of production in Part 2 of Volume III.
