Chapter 4 Research design Chapter 5 Over 50s at work. Findings from case studies Chapter 6 Discussion/what do these findings tell us Chapter 7 The wise worker Chapter 8 Conclusion
Sommario/riassunto	This book reports on original research and provides a positive consideration of the contribution of older workers. The existing literature tends to focus on the barriers, discrimination and problems, which older workers face so this is a useful corrective to that. The book will be of interest to both practitioners and researchers in the field.
