The Second Generation and the Philosophy and Writing of History -- 6. 'Rescuing the Poor Stockinger': History from Below -- 7. Marxism, Structuralism, Humanism -- 8. Marxism and Postmodernism -- 9. Conclusion.
Sommario/riassunto	This textbook examines Marxism's enormous impact on the way historians approach their subject. Tackling current historiographical questions in an accessible way, the author offers a clear introduction to Marxist views of history, key Marxist historians and thinkers, and the relevance of Marxist theory and history to students' own work. This is a

concise, thorough overview of an important area of historiography. The second edition incorporates significant new developments in research, including Marxist contributions to the emergence of global, maritime and transnational history; the discovery of Marx's ecologism and the historical critique of fossil capitalism as a source of environmental disaster; a reassessment of gender oppression through social reproduction theory; and the contribution of Marxism to debates on race, Eurocentrism and whiteness. .
