

1. Record Nr.	UNINA9910495165203321
Titolo	Principles of orthopedic practice for primary care providers // edited by Andrew J. Schoenfeld, Cheri A. Blauwet, and Jeffrey N. Katz
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-74625-9
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (573 pages)
Disciplina	616.7
Soggetti	Orthopedics Ortopèdia Atenció primària Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Preface -- Acknowledgments -- Contents -- Contributors -- Part I: The Spine -- Chapter 1: Axial Neck and Back Pain -- Introduction -- Definition and Epidemiology -- Clinical Presentation -- Pain History -- Physical Examination -- Differential Diagnosis and Diagnostic Testing -- Myofascial Pain -- Pain Associated with Fractures and Ligamentous Injuries -- Discogenic Pain -- Facetogenic Pain -- Sacroiliac Pain -- Conditions Causing Referred Pain to the Spine -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Anterior Spinal Fusion -- Posterior Spinal Fusion -- SI Joint Fusion -- Expected Outcomes -- Suggested Reading -- Chapter 2: Sacroiliac Joint Dysfunction and Piriformis Syndrome -- Part I: Sacroiliac Joint Dysfunction -- SI Joint Anatomy, Innervation, and Function -- Anatomy -- Innervation -- Function -- Etiology and Pathology of SI Joint Pain -- Epidemiology -- Diagnostic Evaluation -- History -- Physical Examination -- Differential Diagnosis -- Imaging -- Diagnostic Injections -- Treatment Options -- Physical Therapy -- Manual Therapy and Manipulation -- Orthotics -- Medications -- Intra-Articular Injection -- Radiofrequency (RF) Ablation -- Prolotherapy and Platelet-Rich Plasma (PRP) Injection -- SI Joint Fusion --

Conclusion -- Part II: Piriformis Syndrome -- Anatomy -- Etiology --
Epidemiology -- Diagnostic Evaluation -- History -- Physical
Examination -- Imaging and Diagnostic Testing -- Treatment --
Conclusion -- References -- Chapter 3: Pain Management for Chronic
Musculoskeletal Disorders -- Myofascial Pain Syndrome --
Pharmacologic Therapy -- Minimally Invasive Therapy -- Trigger Point
Injection -- Botulinum Toxin Injection -- Lumbar Spine -- Lumbar
Epidural Steroid Injections -- Lumbar Facet Interventions -- Sacroiliac
Joint Interventions -- Thoracic Spine -- Thoracic Facet Interventions.
Thoracic Epidural Steroid Injections -- Cervical Spine -- Cervical
Epidural Steroid Injections -- Cervical Facet Nerve Blocks and Ablation
-- Post-Laminectomy Syndrome -- Spinal Cord Stimulation -- Dorsal
Root Ganglion Stimulation -- Intrathecal Pump -- References --
Chapter 4: Adult Spinal Deformity -- Definition and Epidemiology --
Cobb Angle Measurement -- Scoliosis -- Kyphosis/Lordosis --
Epidemiology -- Clinical Presentation and Diagnosis -- Non-operative
Management -- Indications for Surgery, Operative Management,
Postoperative Management -- Conclusions -- References -- Chapter 5:
Cervical Radiculopathy and Myelopathy -- Cervical Radiculopathy --
Definition and Epidemiology -- Clinical Presentation -- Differential
Diagnosis and Diagnostic Testing -- Nonoperative Management --
Indications for Surgery -- Operative Management and Expected
Outcomes -- Cervical Myelopathy and Myeloradiculopathy -- Definition
and Epidemiology -- Clinical Presentation -- Differential Diagnosis
and Diagnostic Testing -- Nonoperative Management -- Indications
for Surgery -- Operative Management and Expected Outcomes --
References -- Chapter 6: Lumbar Disc Herniation and Radiculopathy --
Definition and Epidemiology -- Clinical Presentation -- Differential
Diagnosis and Suggested Diagnostic Testing -- Nonoperative
Management -- Indications for Surgery -- Operative Management --
Expected Outcomes -- Suggested Reading -- Chapter 7: Degenerative
Lumbar Spinal Stenosis and Spondylolisthesis -- Introduction --
Lumbar Spinal Stenosis -- Definition and Epidemiology -- Clinical
Presentation -- Differential Diagnosis and Suggested Clinical Testing
-- Nonoperative Management -- Indications for Surgical Management
-- Operative Management -- Expected Outcomes -- Degenerative
Lumbar Spondylolisthesis -- Definition and Epidemiology -- Clinical
Presentation.
Differential Diagnosis and Suggested Clinical Testing -- Nonoperative
Management -- Indications for Surgical Management -- Operative
Management -- Expected Outcomes -- Suggested Reading -- Part II:
Osteoporosis -- Chapter 8: Osteoporosis, Vertebral Compression
Fractures, and Vertebral Cement Augmentation -- Osteoporosis --
Definition and Epidemiology -- Clinical Presentation -- Differential
Diagnosis -- Diagnostic Testing -- Nonoperative Management --
Expected Outcomes -- Vertebral Compression Fractures -- Definition
and Epidemiology -- Clinical Presentation -- Differential Diagnosis --
Diagnostic Testing -- Nonoperative Management -- Indications
for Operative Management -- Vertebroplasty -- Kyphoplasty --
Expected Outcomes -- Suggested Reading -- Part III: The Hip --
Chapter 9: Hip Soft Tissue Injuries -- Introduction -- Anterior
Hip/Groin Disorders -- Osteitis Pubis -- Definition and Epidemiology
-- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing
-- Nonoperative Management -- Indications for Operative Management
-- Expected Outcomes -- Athletic Pubalgia -- Definition
and Epidemiology -- Clinical Presentation -- Differential Diagnosis --
Diagnostic Testing -- Nonoperative Management -- Indications
for Operative Management -- Expected Outcomes -- Acute Adductor

Strains -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing -- Nonoperative Management -- Indications for Operative Management -- Expected Outcomes -- Iliopsoas Muscle-Tendon Complex Disorders -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing -- Nonoperative Management -- Indications for Operative Management -- Expected Outcomes -- Lateral Hip Disorders -- Greater Trochanteric Pain Syndrome -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing -- Nonoperative Management -- Expected Outcomes -- Hip Pointer (Iliac Crest Contusion) -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing -- Nonoperative Management -- Expected Outcomes -- Posterior Hip Disorders -- Ischiofemoral Impingement -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Diagnostic Testing -- Nonoperative Management -- Expected Outcomes -- Suggested Reading -- Chapter 10: Femoroacetabular Impingement, Labral Tears, and Hip Arthroscopy -- Femoroacetabular Impingement and Labral Tears -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Non-operative Management (PT, Medications, Injections, Other) -- Indications for Surgery -- Operative Management -- Expected Outcome (Benefits, Complications) and Predictors of Outcome -- Abductor Tendon Tears -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Non-operative Management (PT, Medications, Injections, Other) -- Indications for Surgery -- Operative Management (Provide Brief Description of the Surgical Procedure(s)) -- Expected Outcome (Benefits, Complications) and Predictors of Outcome -- Suggested Reading -- Chapter 11: Total Hip Arthroplasty and the Treatment of Hip Osteoarthritis -- Definition and Epidemiology -- Clinical Presentation -- Differential Diagnosis -- Osteoarthritis -- Inflammatory Arthritis -- Avascular Necrosis -- Post-traumatic Arthritis -- Suggested Diagnostic Testing -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Implant Design -- Approach -- Computer- and Robotic-Assisted Surgery -- Perioperative Period -- Postoperative Rehabilitation.

Hip Precautions -- Expected Outcomes -- Wear/Longevity -- Dislocation -- Periprosthetic Fracture -- Thromboembolic Disease -- Infection -- Leg Length Inequality -- Summary -- Suggested Reading -- Chapter 12: Hip-Spine Syndrome -- Summary of Epidemiology and Pathophysiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Expected Outcome and Predictors of Outcome -- Summary -- References -- Part IV: The Shoulder and Elbow -- Chapter 13: Shoulder Soft Tissue Injuries -- Adhesive Capsulitis -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Expected Outcome and Predictors of Outcome -- Biceps Tendinopathy -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Expected Outcome and Predictors of Outcome -- Acromioclavicular Joint Pain -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Nonoperative Management --

Indications for Surgery -- Operative Management -- Expected Outcome and Predictors of Outcome -- Rotator Cuff Pathology -- Summary of Epidemiology -- Clinical Presentation -- Differential Diagnosis and Suggested Diagnostic Testing -- Nonoperative Management -- Indications for Surgery -- Operative Management -- Rotator Cuff Tear -- Calcific Tendinopathy -- Impingement Syndrome -- Expected Outcome and Predictors of Outcome -- Summary -- Suggested Reading -- Chapter 14: Shoulder Instability -- Introduction -- Summary of Epidemiology -- Anterior Shoulder Instability -- Posterior Shoulder Instability. Multidirectional Instability.
