Titolo	Artificial intelligence and digital diplomacy : challenges and opportunities // Fatima Roumate, editor
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-68647-7
Descrizione fisica	1 online resource (xiv, 241 pages) : illustrations
Disciplina	327.2
Soggetti	Diplomacy - Technological innovations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Artificial Intelligence : To Strengthen or to Replace Traditional Diplomacy Marius Vacarelu -- Artificial Intelligence : A New Tool for Diplomats Karim Hamidouche -- Data Sovereignty : New Challenges for Diplomacy Meriem Rafik -- Cyber Security New Threats for Diplomacy Jasminka Simic -- Always There : How Diplomats Deal with Visibility Injunction in the Digital Public Sphere Nadege Broustau, Marie Neihouser -- Digitalization Between Security and Order and Democracy and Liberalism Zhidas Daskalovski -- Digital Diplomacy and International Regulation of the Web Mohammed Elkhaldi -- Malicious Use of Artificial Intelligence, New Challenges for Diplomacy and International Psychological Security Fatima Roumate -- Artificial Intelligence : The New Tool for Cyber Diplomacy Alina Bargaoanu, Bianca-Florentina Cheregi -- European Digital Diplomacy Towards Russia : A Cross-Country Social Media Analysis Erik Vlaeminck -- Helsinki-Based Embassies and Ambassadors on Twitter : An Analysis of Communication Goals and Rhetorical Ethos in Diplomatic Twitter Practice Lassi Rikkonen -- The Potential and Limits of US Digital Diplomacy in the Middle East and North Africa Hassan Benouachan -- Twitter Diplomacy on CPEC : Impact on the Triangular Relationships Between the Pak-China and the USA Raja Awais Khalid -- Effective Digital Diplomacy? A Case Study of the British Embassy in Egypt Muhammad A.F. Allam.
Sommario/riassunto	"This volume discusses digital diplomacy and artificial intelligence

within the context of global governance and international security. Rapid digitalization has changed the way international actors interact, offering new opportunities for international and bilateral cooperation and reinforcing the role of the emergent actors within global governance. New phenomena linked to digitalization and artificial intelligence are emerging and this volume brings a multidisciplinary, mixed-methods approach to studying them. Written by globally recognized experts, each chapter presents a case study covering an emerging topic such as: international regulation of the web and digital diplomacy, the interplay of artificial intelligence and cyber diplomacy, social media and artificial intelligence as tools for digital diplomacy, the malicious use of artificial intelligence, cyber security, and data sovereignty"--Publisher's description.
