

1. Record Nr.	UNINA9910495181603321
Autore	Han Ho-Seong
Titolo	Color Atlas of Laparoscopic Liver Resection // by Ho-Seong Han, Jai Young Cho
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2021
ISBN	981-16-1546-2
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (67 pages)
Disciplina	617.550597
Soggetti	Endoscopic surgery Internal medicine Cancer - Treatment Minimally Invasive Surgery Internal Medicine Cancer Therapy Hepatectomia Chirurgia laparoscòpica Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introduction -- 2. Instruments and energy devices for laparoscopic liver resection -- 3. Basic skills for laparoscopic liver resection -- 4. Anatomical liver resection -- 5. Non-anatomical liver resection -- 6. Others.
Sommario/riassunto	This atlas describes and illustrates in detail the surgical procedures employed in laparoscopic anatomical liver resection, according to tumor location. The surgical approach and techniques are explained for each type of laparoscopic liver resection based on the involved anatomical segment, section, and hemi-liver. Attention is also drawn to potential complications and the means of preventing and managing them. Beyond anatomical liver resection, guidance is provided on non-anatomical resections that do not pay regard to segmental, sectional, or lobar anatomy. The coverage is completed by the inclusion of useful information on instruments and energy devices as well as the basic

skills required for laparoscopic liver resection. In presenting a clear practical approach to each laparoscopic anatomical major and minor resection, the Color Atlas of Laparoscopic Liver Resection will be an invaluable guide for trainees. In addition, it will equip more experienced surgeons with much useful information that will enable them to further improve their technique.
