

1. Record Nr.	UNINA9910495187503321
Titolo	Tumor Microenvironment : The Role of Chemokines – Part B / / edited by Alexander Birbrair
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	3-030-62658-X
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (146 pages)
Collana	Advances in Experimental Medicine and Biology, , 2214-8019 ; ; 1302
Disciplina	616.994042 616.994071
Soggetti	Cancer Cytology Proteins Internal medicine Cancer Microenvironment Cancer Biology Cell Biology Protein Biochemistry Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	CCL2 in the tumor microenvironment -- CXCL3 signaling in the tumor microenvironment -- CXCL8 Signaling in the Tumor Microenvironment -- CXCL11 signaling in the tumor microenvironment -- CXCL12 signaling in the tumor microenvironment -- CXCL13 signaling in the tumor microenvironment -- CCL24 signaling in the tumor microenvironment -- CCL25 signaling in the tumor microenvironment -- CCL27 signaling in the tumor microenvironment -- Index.
Sommario/riassunto	Revealing essential roles of the tumor microenvironment in cancer progression, this book provides a comprehensive overview of the latest research on the role of chemokines in the tumor microenvironment. Each chapter focuses on the chemokines patterns of expression, their regulation, and their roles in immune cell recruitment, as well as how they affect cancer immunity and tumorigenesis. Taken alongside its

companion volumes, Tumor Microenvironment: The Role of Chemokines – Part B updates us on what we know about various aspects of the tumor microenvironment, as well as apprises us on future directions in the field. This book is essential reading for advanced cell biology and cancer biology students as well as scientists seeking an update on recent developments and research in the tumor microenvironment.
