

1. Record Nr.	UNINA990007361430403321
Autore	Grimmett, Geoffrey R. <1950- >
Titolo	One thousand exercises in probability / Geoffrey R. Grimmet and David R. Stirzaker
Pubbl/distr/stampa	Oxford : Oxford University Press, 2001
ISBN	0-19-857221-2
Descrizione fisica	X, 438 p. ; 24 cm
Altri autori (Persone)	Stirzaker, David
Disciplina	519.2076
Locazione	FSPBC
Collocazione	VI E 960
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Contiene anche le soluzioni agli esercizi di Probability and random processes, 3. ed., Oxford : Oxford University Press, 2001

2. Record Nr.	UNINA9910495196703321
Titolo	Management of Pancreatic Cancer and Cholangiocarcinoma // edited by Hiroyuki Isayama, Yousuke Nakai, Takashi Sasaki
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2021
ISBN	981-16-2870-X
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (318 pages)
Disciplina	616.99437
Soggetti	Internal medicine Surgery Cancer - Epidemiology Internal Medicine Cancer Epidemiology Càncer de pàncrees Tracte biliar Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part I Current topics in epidemiology and examinations of Pancreas Cancer and Cholangiocarcinoma -- 1.Risk Factors for Pancreatic Cancer and Cholangiocarcinoma.-2. Detection strategies and examination of early pancreatic cancer.-3. Biomarkers for Pancreatic Cancer and Cholangiocarcinoma -4. Recent advances of precision medicine in pancreatic cancer and and cholangiocarcinoma -- Part II Anti-cancer treatments for pancreas cancer -- 5.Chemotherapy for locally advanced and metastatic pancreatic cancer -- 6.Neoadjuvant therapy for resectable and borderline resectable pancreatic cancer.-7. Adjuvant Chemotherapy for Pancreatic Cancer -- 8.Conversion Surgery in Pancreatic Cancer -- 9.Radiotherapy for pancreatic cancer -- Part III Anti-cancer treatments for cholangiocarcinoma -- 10.Chemotherapy for unresectable cholangiocarcinoma -- 11.Adjuvant chemotherapy for cholangiocarcinoma -- 12.Neoadjuvant therapy and conversion surgery for cholangiocarcinoma -- 13.Radiotherapyfor cholangiocarcinoma -- Part VI New Treatment for Pancreatic Cancer and Cholangiocarcinoma

-- 14. Precision medicine for pancreatic cancer and cholangiocarcinoma -- 15. Immunotherapy for pancreatic cancer and biliary tract cancer -- 16. Treatment approach for pancreatic ductal adenocarcinoma with peritoneal dissemination -- 17. Treatment strategies for frail and elderly patients with pancreatic cancer. -Part V Endoscopic management of pancreas cancer and cholangiocarcinoma -- 18. Endoscopic diagnosis of pancreatic cancer and cholangiocarcinoma -- 19. Preoperative biliary drainage for pancreatic cancer and cholangiocarcinoma -- 20. ERCP for malignant biliary obstruction for unresectable pancreatic cancer and cholangiocarcinoma -- 21. Interventional EUS for pancreatic cancer and cholangiocarcinoma -- 22. Novel endoscopic focal therapy for pancreatic cancer and cholangiocarcinoma -- 23. Endoscopic management of gastrointestinal obstruction from pancreaticobiliary cancer -- 24. Development of Self-expandable Biliary Metal Stents for Pancreatic Cancer and Cholangiocarcinoma.

Sommario/riassunto

This comprehensive book presents the latest evidence-based data on pancreatobiliary malignancies, including the epidemiology, examination, treatment and endoscopic management. It explores a range of topics, such as risk factors, detection strategies, and novel treatment approaches like precision medicine and immunotherapy. Although there have been rapid improvements in the management of these diseases, the survival period has not yet reached a satisfactory level. This book will help those doctors needing to share the latest information with the patients and their families. It provides a wealth of practical information to help surgeons, endoscopists and oncologists as well as physicians, basic researchers and professionals at medical device and pharmaceutical companies broaden their understanding of the current treatment and management strategies for pancreatobiliary malignancies.
