ISBN	3-030-71950-2
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XVI, 478 p. 147 illus., 105 illus. in color.)
Collana	Springer climate
Disciplina	363.73874095492
Soggetti	Climatic changes - Bangladesh Human ecology - Bangladesh
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Chapter1.Climate Change Impact on Life and Livelihoods in Bangladesh -- Chapter 2. Climate change impact on the reduction of forest in Bangladesh -- Chapter3. Climate change impacts on the coastal zones of Bangladesh -- Chapter4. Mitigation strategies of Coastal People to Climate Change and Vulnerabilities -- Chapter5. Climate Change Impact on Groundwater Based Irrigation in Bangladesh -- Chapter6. Climate Smart Resilience for Vulnerable Communities in Bangladesh.
Sommario/riassunto	This volume develops a framework for disaster and climate risk resilient livelihood system in Bangladesh using a policy oriented approach. It highlights the possible impacts of climate change on groundwater based irrigation in the country. Climate change is one of biggest challenges to society. It can lead to serious impacts on production, life and environment on a global scale. Higher temperatures and sea level rise will cause flooding and water salinity problems which will bring about negative effects on agriculture and high risks to industry and socio-economic systems in the future. Climate change will lead to many changes in global development and security especially energy, water, food, society, job, diplomacy, culture, economy and trade. The Intergovernmental Panel on Climate Change (IPCC) defines climate change as: "Any change in climate over time, whether due to natural variability or as a result of human activity." Global climate change has emerged as a key issue in both political and

economic arenas. It is an increasingly questioned phenomenon, and progressive national governments around the world have started taking action to respond to these environmental concerns.
