

1. Record Nr.	UNINA9910818391003321
Titolo	Current approaches to deep vein thrombosis // editors, Henri Bounameaux, University of Geneva, Switzerland, Gregoire Le Gal, University of Ottawa, ON, Canada
Pubbl/distr/stampa	London, England : , : Future Medicine Ltd, , 2013 ©2013
ISBN	1-78084-454-9 1-78084-453-0
Descrizione fisica	1 online resource (179 pages) : illustrations (some color), tables
Disciplina	616.142
Soggetti	Thrombophlebitis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.

2. Record Nr.	UNINA9910495235703321
Titolo	Surgery of Pelvic Bone Tumors // edited by Pietro Ruggieri, Andrea Angelini
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	3-030-77007-9
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (250 pages)
Collana	Medicine Series
Disciplina	616.99496059
Soggetti	Orthopedic surgery Surgery Oncology Radiology Primary care (Medicine) Surgical Orthopedics General Surgery Primary Care Medicine Pelvis Càncer d'ossos Cirurgia oncològica Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1 Surgical approaches on pelvic bone tumors -- 2 The history of pelvic tumor surgery -- 3 Imaging of pelvic bone tumors -- 4 Most common histotype of pelvic bone tumors -- 5 Benign pelvic bone tumors -- 6 Chondrosarcoma of the pelvis -- 7 Osteosarcoma of the pelvis -- 8 Ewing's sarcoma of the pelvis -- 9 Pelvic metastases: diagnosis and treatment -- 10 Demolitive surgery for pelvic bone tumors -- 11 Principles of pelvic tumor surgery -- 12 Innovative techniques in pelvic reconstructions -- 13 Navigation in pelvic surgery -- 14 Spino-pelvic stabilization -- 15 Reconstruction VS no reconstruction -- 16 The hip transposition as a reconstructive technique after pelvic resection -- 17

The use of stemmed cups in pelvic reconstruction -- 18 3D printed reconstructions -- 19 3D printed reconstructions -- 20 Particles radiotherapy -- 21 Chemotherapy for pelvic bone tumors -- 22 Role of plastic surgery in the treatment of pelvic tumors -- 23 Anesthesiology for pelvic tumor surgery: from risk evaluation to postoperative course -- 24 The importance of a multidisciplinary approach to pelvic tumors -- 25 Functional rehabilitation after pelvic resection and reconstruction.

Sommario/riassunto

Approaches to complex pelvic surgery have changed dramatically in recent years thanks to the development of the entire field of orthopedic surgery. This volume focuses on the mastery of diagnosis, management and operative techniques for tumors of the pelvis. It also provides a thorough understanding of how to select the best procedure, how to avoid complications, and what outcomes to expect. Written by experts from leading institutions around the globe, it is a comprehensive reference on treating the full range of musculoskeletal tumors frequently encountered in the pelvis. It offers an overview and an update on the epidemiology, principles of initial assessment, clinical presentation and imaging characteristics of pelvic tumors, guiding clinicians through key questions for developing a differential diagnosis and selecting the appropriate surgical technique. This book is an indispensable resource for orthopedists, oncologists, as well as radiologists and pathology specialists treating patients with bone and soft-tissue tumors.
