Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Le risque comme l'expertise sont des sujets d'une rare richesse, comme le confirme la vaste littérature sur ces questions. Lorsqu'ils sont croisés, les difficultés que chacun d'entre eux soulève s'en trouvent renforcées. Le présent ouvrage est le produit des sixièmes conférences Pierre Duhem qui avaient pour thème : risque et expertise. Il rassemble les textes originaux de l'économiste Marc Fleurbaey et du philosophe Sven Ove Hansson, ainsi que les échanges qu'ils ont eus avec les commentateurs Mikaël Cozic, Minh Ha-Duong et Emmanuel Henry. Un essai introductif, d'Alexandre Guay, complète le tout.

2. Record Nr.	UNINA9910780824403321

Sommario/riassunto	Drawing on declassified documents and painstaking research, this exploration of the economic drug trade of Central and South America fills in historical gaps and provides a new and controversial analysis of a complex and seemingly unsolvable problem. Viewing the problem

through the lens of United States policy, the author puts forth the theory that, through the conflation of the Cold War and the war on drugs, the United States helped establish and strengthen the drug trade as the area's economic base. This authoritative and timely polemic traces the counternarc
