| Sommario/riassunto | <p>L'analyse de la création de Philippe Jaccottet présentée dans cette étude a pour originalité de suivre chronologiquement la production du poète et de tenter une analyse recueil après recueil afin d'en suivre les modulations qui la parcourent. Par là c'est à une critique de type existentiel que nous avons affaire. De L'Effraie à Pensées sous les nuages se lisent successivement l'élaboration et l'épanouissement d'une rêverie réparatrice (L'Effraie, L'Ignorant, Airs) compensant la conscience cruelle du temps qui tue, la subversion de cette rêverie par la mystique dans Paysages avec figures absentes, et un pur affrontement de la négativité qui fait le fond des derniers recueils ici étudiés : A la lumière d'hiver et Pensées sous les nuages. Après L'Effraie et ses notations où s'inscrit une sensualité - notations riches de potentialités de rêveries -, L'Ignorant, livre de sagesse, s'exerce à la dépossession. Le poète, veilleur, passeur, s'efforce de tourner avec la lumière, de persévérer avec les eaux et de passer avec les oiseaux. Éléments d'un songe donne les clefs de l'inspiration des poèmes et proses qui suivent (Airs, Paysages avec figures absentes) : il s'agit d'être à l'écoute du divin répandu dans l'herbe. Airs offre une lecture au fil des saisons qui note le battement de la vie. Dans Paysages avec figures absentes on voit le poète passer de l'inscription simplement recueillie à la rage de l'inscription. Insensiblement la page du sensible</p> |

- si ardemment tenue dans Airs -, est trouée et la rêverie s'échappe dans l'illimité. Le paysage devient sermon. Leçons et Chants d'en-bas rappellent à l'humilité le rêveur trop confiant dans les mots. L'expérience concrète de la mort qui frappe les proches détruit toute velléité de poursuivre l'alchimie rêveuse qui rendrait le monde à l'ignorant frappé par les cris de l'effraie. Le seul trafic avec l'aérien est un trafic d'homme à homme - et non de l'homme face au monde : faire prendre air à l'homme appelé par le temps à se...

Sommario/riassunto

Social Policy and Practice in Canada: A History traces the history of social policy in Canada from the period of First Nations' control to the present day, exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with (or to ignore) the needs of the ill, the poor, the elderly, and the young. This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country. While earlier work has treated each new social program as a major advance, and reacted with shock to neoliberalism's attack on social programs, Alvin Finkel demonstrates that right-wing and left-wing forces have always battled to shape social policy in Canada. He argues that the notion of a welfare state consensus in the period after 1945 is misleading, and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted. Social Policy and Practice in Canada: A History begins by exploring the non-state mechanisms employed by First Nations to insure the well-being of their members. It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate. After examining why voluntary organizations gradually gave way to state-controlled programs, the book assesses the evolution of social policy in Canada in a variety of areas, including health care, treatment of the elderly, child care, housing, and poverty.
