

1. Record Nr.	UNINA9910497108903321
Autore	Dubey Avanish Kumar
Titolo	Recent Trends in Industrial and Production Engineering : Select Proceedings of ICAST 2020
Pubbl/distr/stampa	Singapore : , : Springer Singapore Pte. Limited, , 2021 ©2022
ISBN	981-16-3135-2
Descrizione fisica	1 online resource (290 pages)
Collana	Lecture Notes in Mechanical Engineering Ser.
Altri autori (Persone)	SachdevaAnish MehtaMunish
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Acknowledgements -- Contents -- About the Editors -- A Comparative Analysis of Different Techniques of Thermal Barrier Coating -- 1 Introduction -- 2 Various Techniques of Coating -- 2.1 Atmospheric Plasma Spraying Technique (APS) -- 2.2 Electron Beam-Physical Vapor Deposition (EB-PVD) -- 2.3 High Velocity Oxygen Fuel (HVOF) -- 2.4 Kinetic Spray Coatings -- 2.5 Comparison Between the Techniques of Coating -- 3 Conclusion -- References -- A Review on Post Additive Manufacturing Techniques to Improve Product Quality -- 1 Introduction -- 2 Temperature Effect on 3D-Printed Parts -- 3 Reason of Porosity and Affective Measures -- 4 Surface Roughness Affects and Measures -- 5 Warping -- 6 Quality Methods -- 7 Crack Detection in 3D-Printing Process -- 8 Material Selection -- 9 Conclusion -- References -- A Review on Various Types of Burr Formation in Drilling -- 1 Introduction -- 2 Results and Discussions -- 3 Conclusions -- References -- Application of 5s Methodology in a Small-Scale Enterprise: Case Study -- 1 Introduction -- 2 5s Implementation -- 2.1 Seiri (Sort) -- 2.2 Seiton (Set) -- 2.3 Seiso (Shine) -- 2.4 Seiketsu (Standardizing) -- 2.5 Shitsuke (Sustain) -- 3 Conclusions -- References -- Availability Analysis of Shoe Manufacturing Unit Using Petri Nets -- 1 Introduction -- 2 Petri Nets -- 3 System Description -- 3.1 Assumptions for the Modelling -- 4 Petri Net-Based System Modelling -- 4.1 Representation of Dynamic

Behaviour of the System -- 4.2 Performance Analysis of the System --
5 Conclusion -- References -- Delamination Detection and Evaluation
in Composite Laminates Using Guided Ultrasonic Waves -- 1
Introduction -- 2 Experimental Details -- 2.1 Materials -- 2.2 Methods
-- 3 Results and Discussions -- 3.1 Delamination of Varying Extent
(Length) -- 3.2 Delamination Defects at Different Depths -- 4
Conclusions.

References -- Development of a Systematic Framework to Optimize
the Production Process in Shop Floor Management -- 1 Introduction --
2 Research Objective -- 3 Research Methodology -- 4 Research Gap --
5 Industry Description -- 6 Results and Discussion -- 7 Conclusions --
References -- Effect of Process Parameters on Machining of D2 Steel
Using Taguchi Method -- 1 Introduction -- 1.1 Taguchi Technique --
1.2 Work Materials -- 1.3 Electrode Material -- 1.4 Experimental
Details -- 2 Results and Discussions -- 2.1 Plot for S/N Ratio -- 2.2
Surface Micro-structure of the EDMed Surface -- 3 Conclusions --
References -- Experimental Investigation of Water Absorptions
and Charpy Test of Epoxy Composite Immersed in Different Aqueous
Medium -- 1 Introduction -- 2 Materials -- 2.1 Fabrication Procedure
of Test Specimens -- 2.2 Procedure of Moisture Absorption Testing
and Evaluation -- 2.3 Charpy Test Characterization on Fabricated
Sample -- 3 Results and Discussion -- 3.1 Water Absorption Test --
3.2 Charpy Test Results -- 4 Conclusion -- References -- Four
Wheeler's Health Monitoring by Sound Level Measurement: A Case
Study -- 1 Introduction -- 2 Description of Selected Vehicles -- 3 Test
Results with Discussion -- 4 Conclusion -- References -- Green
Manufacturing a Modern Era for Indian Manufacturing Industries:
A Review -- 1 Introduction -- 2 Literature Review -- 3 Conclusion --
References -- Investigation of Fused Deposition Modeling (FDM)
Process Parameters Influencing the Additively Manufactured Part
Characteristics: A Review Paper -- 1 Introduction -- 1.1 Methods
and Materials -- 1.2 FDM Process -- 2 FDM Process Parameters
Affecting the Characteristics of 3D Printed Parts -- 2.1 FDM Process
Parameters -- 2.2 Mechanical Properties of FDM Printed Parts -- 2.3
Part Quality Characteristics -- 3 Results and Discussions -- 4
Conclusions -- References.

Investigation of Manual Material Tasks Performed by Workers in North
Indian Manufacturing Industries -- 1 Introduction -- 2 Material
and Methods -- 3 Results and Discussion -- 4 Conclusions --
References -- Investigation of Tribological Properties of Stir Cast
Hybrid Aluminum Composites -- 1 Introduction -- 2 Materials
and Method -- 3 Results and Discussion -- 3.1 Wear Test Results --
3.2 Wear Results Discussion -- 4 Conclusion -- References --
Investigations of Wear Behavior of Journal Bearing Materials -- 1
Introduction -- 2 Experiment Details -- 3 Results and Discussions -- 4
Conclusions -- References -- Metallurgical and Mechanical Behavior
of Friction Stir Processed WE43/Nano-SiC Surface Composite -- 1
Introduction -- 2 Experimentation -- 2.1 Materials -- 2.2 FSP Setup
Used in Study -- 2.3 Microstructure Characterization and Phase
Composition -- 2.4 Mechanical Properties -- 3 Result and Discussion
-- 3.1 Metallurgical Behavior -- 3.2 Mechanical Properties -- 4
Conclusions -- References -- Modal and Static Analysis for Analyzing
the Effect of Loading on Crack Propagation Rate Using FEM -- 1
Introduction -- 2 Mathematical Formulation -- 2.1 Deriving Element
Stiffness Matrices and Load Vector -- 2.2 Solving the Equation
and Applying Boundary Conditions or Initial Conditions -- 2.3
Assemble the Element Matrices and Vectors -- 3 Finite Element
Analysis -- 3.1 Defining the Problem: Pre-processing -- 3.2 Creating

Three Dimensional Model -- 3.3 Selection of Element Type -- 3.4 Defining Material Properties -- 3.5 Meshing -- 3.6 Loads/boundary Conditions -- 3.7 Define Contact and Check Contact Element -- 3.8 Post Processing -- 4 Result and Discussion -- 4.1 Mode Shape Analysis -- 4.2 Loading Effect on Crack Propagation -- 5 Conclusion -- References -- Optimization and Validation of Material Removal Rate During EDM of HSLA Steel -- 1 Introduction. 2 Material and Methods -- 2.1 Work Material and Experimental Conditions -- 3 Design of Experiments -- 4 Results and Discussion -- 5 Confirmation Run -- 6 Conclusions -- References -- Parametric Influence on Material Removal Rate of K-90 Alumina Ceramics During Zircon Sand (Abrasives) Jet Assisted Machining -- 1 Introduction -- 2 Experimental Procedure -- 3 Result and Discussion -- 4 Conclusion -- References -- Recent Development in Friction Stir Welding: An Advancement in Welding Technology -- 1 Introduction -- 2 Material Used -- 3 Temperature Measurement During FSW -- 3.1 Thermocouple Used for Measurement -- 4 Conclusion -- References -- Recent Trends in Weldability and Corrosion Behavior of Low Nickel Stainless Steels -- 1 Introduction -- 2 Literature Review -- 2.1 Literature Search Methodology -- 2.2 Weldability of Low Ni-based SS -- 2.3 Corrosion Behavior -- 2.4 Pre Weld Heat Treatment -- 3 Discussion of Study -- 4 Conclusion -- References -- Reliability Analysis-A Critical Review -- 1 Introduction -- 2 Literature Review -- 3 Discussion and Prospective -- 4 Conclusions -- References -- Shop Floor Productivity Enhancement Using a Modified Lean Manufacturing Approach -- 1 Introduction -- 2 Research Objective -- 3 Production Description -- 4 Implementation of Process Improvement Technique -- 5 Results and Discussion -- 6 Conclusions -- References -- Simulation Model for Productivity, Production and Cost Improvement in an SME -- 1 Introduction -- 2 Problem Statement -- 3 Action Plan for Development of the Simulation Model -- 4 Design of the Simulation Model -- 5 Results and Discussion -- 6 Conclusion and Future Scope -- References -- STL Generation from Point Cloud Data with User-Controlled Triangulation for Additive Manufacturing -- 1 Introduction -- 2 Literature Review -- 3 Terminologies -- 4 Methodology -- 5 Implementation. 5.1 Developed Algorithm -- 5.2 STL Generation from Triangulated Mesh -- 6 Validation -- 7 Conclusion -- References -- Sustainable Green Lean Six Sigma Methodology and Application Status: A Perspective Review -- 1 Introduction -- 2 Integration Model of Green and Lean Six Sigma -- 3 Proposed GLS Implementation Framework -- 4 Current Status of GLS Implementation -- 5 Research Gaps -- 6 Conclusion and Future Research Agenda -- References -- The Effect of Gating System on Quality of Traditional Rural Metal Castings of India -- 1 Introduction -- 2 Background -- 3 Experimental Methodology -- 3.1 Design of Experiment -- 3.2 Experimental Procedure -- 4 Results and Discussions -- 4.1 Mechanical Analysis of Cast Samples -- 4.2 Characterization -- 4.3 Gradation by TOPSIS -- 4.4 Discussions -- 5 Conclusion -- References -- Tool Wears in Milling of Al/SiCp Composites by Dry and MQL Milling -- 1 Introduction -- 2 Materials for Experimentation -- 3 Experimental Design -- 4 Modelling of Tool Wear ($V_{bmax.}$) -- 5 Analysis of Results and Optimization -- 6 Validate Software Results -- 7 Conclusion -- References.
