

1. Record Nr.	UNINA9910502625803321
Autore	Yang Xin-She
Titolo	Proceedings of Sixth International Congress on Information and Communication Technology : ICICT 2021, London, Volume 1
Pubbl/distr/stampa	Singapore : , : Springer Singapore Pte. Limited, , 2021 ©2022
ISBN	981-16-2377-5
Descrizione fisica	1 online resource (981 pages)
Collana	Lecture Notes in Networks and Systems Ser. ; ; v.235
Altri autori (Persone)	SherrattSimon DeyNilanjan JoshiAmit
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Editors and Contributors -- Techniques of Time Series Modeling in Complex Systems -- 1 Introduction -- 2 Discussion -- References -- Examining the Server's Load Average When Trying to Attack the Firewall -- 1 Introduction -- 2 Related Works -- 3 Theoretical Explanation -- 4 Experimental Environment -- 5 Results and Interpretation -- 6 Conclusions -- References -- Blockchain as a Technology Contributor: A Survey -- 1 Introduction -- 2 Literature Review -- 2.1 Advantages of Blockchain -- 2.2 Challenges of Blockchain -- 3 Blockchain Protocols -- 4 Future Discussion -- 5 Conclusion -- References -- GeLaP: German Labeled Dataset for Power Consumption -- 1 Introduction -- 2 Use Case and Disaggregation-BLADL -- 3 Methodology of Data Collection -- 3.1 Measuring Instruments -- 3.2 Data Transmission and Storage -- 3.3 Ethics and Privacy Considerations -- 4 Dataset Description -- 5 Households Overview -- 6 Data Quality Reflection -- 7 Related Datasets Survey -- 8 Conclusion and Future Work -- References -- Smart Platform Designed to Improve Poultry Productivity and Reduce Greenhouse Gas Emissions -- 1 Introduction -- 2 Solutions for Poultry Sector -- 2.1 Smart Poultry Management Systems and Role of Computer Vision and Machine Learning -- 2.2 Multi-criteria Decision-Making in the Poultry Production and Importance of GHG Reduction -- 3 Smart Platform

for Improvement of Poultry Productivity and Reduction of Greenhouse Gas Emissions -- 3.1 Challenges of Implementation -- 3.2 Available Preliminary Data and Experimental Object -- 4 Conclusions -- References -- RPL-OC: Extension of RPL Protocol for LLN Networks Based on the Operator Calculus Approach -- 1 Introduction -- 2 Related Work -- 3 RPL-OC Approach -- 4 Performance Evaluation -- 5 Conclusions -- References -- Evaluating Challenges in Using Big Data in Healthcare.

1 Introduction -- 2 Literature Review -- 2.1 Overall Challenges of Big Data -- 2.2 Application of Big Data in Healthcare -- 2.3 Challenges for Healthcare Industry -- 3 Thematic Analysis -- 4 Conclusion and Future Work -- References -- Hardware Control of the Electron Beam Energy Density by the Heating Spot -- 1 Introduction -- 2 Experimental Study -- 3 Conclusion -- References -- A Machine Learning Model for Predicting Fetal Hemoglobin Levels in Sickle Cell Disease Patients -- 1 Introduction -- 2 Background -- 2.1 Polymorphism and Hemoglobin Regulating Genes -- 2.2 Sickle Cell Anemia -- 3 Our Approach -- 3.1 Machine Learning Approach -- 3.2 Training/Test Set -- 4 Implementation -- 4.1 Previous Model Accuracy -- 4.2 K-Nearest Neighbors Algorithm Implementation -- 4.3 Model Data Processing -- 4.4 Alternative Algorithms Comparison -- 5 Results and Evaluation -- 5.1 Accuracy -- 5.2 K-Value Evaluation -- 5.3 Training Set Size and Cross-Validation -- 6 Conclusions -- 6.1 Model Applications -- 6.2 Future Work -- References -- Simulations of Instationary Schrodinger Equation with Coupled Time- and Space Splitting Methods -- 1 Introduction -- 2 Time-Space Splitting Method for Instationary Schrödinger Equations -- 3 Numerical Results -- 4 Conclusion -- References -- Prediction of Movie Success Using Twitter Temporal Mining -- 1 Introduction -- 2 Related Works -- 3 Movie Success Prediction Models -- 3.1 TweetAMovie Dataset Collection -- 3.2 Feature Preparation -- 3.3 Proposed Prediction Models -- 4 Experiments and Results -- 4.1 Experiments Results -- 5 Conclusion -- References -- The Model of Business Intelligence Development by Applying Cooperative Society Based Financial Technology -- 1 Introduction -- 2 Material and Method -- 2.1 Cooperative Society World Data -- 2.2 Relationships and BI Models to FinTech -- 3 Result and Discussions -- 4 Conclusion.

References -- A Computational Intelligent Cognition System Under Uncertainty -- 1 Introduction -- 1.1 Conception -- 1.2 Motivation, Novelty, and Contribution of the Study -- 2 The Self-Developing Computational Systemic Cognitive Memory -- 2.1 The Model of Self-Developing Computational Systemic Cognitive Memory -- 3 The Self-Developing Computational System Model of Situational Control of Mental Cognition -- 3.1 The Model of Situational Fuzzy Control of Mental Cognition -- 4 The CSSC Modeling Under Uncertainty -- 4.1 The Model of CSSC Modeling Process -- 4.2 Modeling of the CSSC -- 4.3 The Model of Computational Mapping Rules for the CSSC Modeling -- 5 Conclusion -- References -- State-of-the-Art of the Impact of HIV and Its Treatment on the Voice of PLHIV -- 1 Introduction -- 2 The Variability of the Voice in RAL -- 2.1 Technology-Related Variability -- 2.2 Conversation-Related Variability -- 2.3 Speaker-Related Variability -- 3 Does HIV and its Treatment Have an Impact on the Voice? -- 3.1 Difference Voice, Speech as Well as Their Disorders -- 3.2 Neurological Disorders and Voice Disorders -- 3.3 HIV and Voice Disorders in PLHIV -- 3.4 Medicines and Voice Disorders in PLHIV -- 4 Discussion -- 4.1 The Updated Models -- 4.2 Double Identification -- 5 Conclusion -- References -- Specifics of Digitalization Strategies for Risk Management Systems as a Transformation Factor of Russian

Companies' Management Systems in the Context of the COVID-19 Pandemic -- 1 Introduction -- 2 Role and Significance of Digital Technology in Strategic Management and Risk Management Systems of Russian Companies in the Context of Pandemic -- 3 Research Method -- 4 Analysis of the Content of Processes of Introducing Digital Technology in Russian Companies' Strategic Management and Risk Management Systems in the Context of the Pandemic -- 5 Conclusion -- References.

Application of Adjusted Differential Evolution in Optimal Sensor Placement for Interior Coverage -- 1 Introduction -- 2 Mathematical Problem Formulation -- 3 A Suboptimal Sensor Location Method for IC -- 4 An Adjusted Discrete Differential Evolution for IC -- 5 Experimental Results -- 6 Conclusion -- References -- Minimizing Costs of Transportation Problems Using the Genetic Algorithm -- 1 First Section -- 1.1 Introduction -- 1.2 Research Method -- 1.3 Optimization -- 1.4 Transportation Problem -- 1.5 Genetic Algorithm -- 1.6 The Relationship Between the Genetic Algorithm and the Transfer -- 1.7 Solution -- 1.8 Results -- 1.9 Discussion -- References -- Analysis of the Most Promising Parametric Linear Methods for Studying Intellectual Competence -- 1 Introduction -- 1.1 Research Questions -- 1.2 Purpose of the Study -- 2 Study Participants -- 3 Research methods -- 3.1 Methodology for Diagnosing Conceptual Abilities: "Conceptual Synthesis" [9] -- 3.2 Methods for Identifying Metacognitive Abilities: -- 3.3 The Author's Method of Diagnostics of Intentional Abilities: "Mood" -- 3.4 Author's Methodology for Assessing Intellectual Competence: "Interpretation" -- 4 Results -- 4.1 Discriminant Analysis of Conceptual, Metacognitive, and Intentional Components of Intellectual Competence -- 4.2 Factor Structure of Intellectual Competence (Conceptual, Metacognitive, and Intentional Components) -- 4.3 Regression (Multiple) Analysis of the Components of Intellectual Competence (Conceptual, Metacognitive, and Intentional Components) -- 5 Findings -- References -- Enabling Cloud Computing to Facilitate Health Analytics Application from Local Hospitals in Thailand -- 1 Introduction -- 2 Literature Review -- 3 Methodology -- 3.1 Data Collection -- 3.2 Data Query for Cancer, Hypertension, and Diabetic Patients -- 3.3 Data Cleaning Process. 3.4 Relational Diagram and Violation Mapping -- 4 Results -- 5 Conclusion -- References -- Neural Network-Based TID Controller for Wheeled Mobile Robot Trajectory Tracking -- 1 Introduction -- 2 Kinematic Model of a Robot -- 3 Proposed NN-Based TID Controller -- 4 Results and Discussions -- 4.1 Case 1: Circular Trajectory -- 4.2 Case 2: Lemniscate Trajectory -- 4.3 Case 3: B Spline Trajectory -- 4.4 Case 4: Straight Line Trajectory -- 5 Conclusion -- References -- Do You Trust Me? Value and Governance in Data Sharing Business Models -- 1 Introduction -- 2 Research Questions -- 3 Methodology -- 4 Literature Review -- 4.1 Data-Sharing Literature -- 4.2 Data Governance Literature -- 4.3 Business Models Literature -- 5 Factors Determining Data Sharing -- 5.1 Intra-organizational -- 5.2 Inter-organizational -- 6 Conclusion -- References -- Knowledge Transfer in Intercultural Technical Communication in View of Translation Synergetic Paradigm -- 1 Introduction -- 2 Problem Statement and Research Goals -- 3 Methodology and Research Methods -- 4 Results and Discussions -- 5 Conclusion -- References -- User Experience Framework for Teachers Using Mobile Technologies in Resource-Constrained Environments -- 1 Introduction -- 2 Literature Review -- 2.1 User Experience -- 2.2 Exploring the UX Components -- 3 Research Methodology -- 4 Data Analysis and Findings -- 4.1 Results: User (Teacher) -- 4.2 Results: System

(Mobile Technologies) -- 4.3 Results: Context (Resource-Constrained Environment-School) -- 5 Conclusion -- References -- Two-Phase Approach for Solving the Rich Vehicle Routing Problem Based on Firefly Algorithm Clustering -- 1 Introduction -- 2 Literature Review -- 3 Case Study -- 3.1 Phase I: Clustering -- 3.2 Phase II: Cluster Routing -- 4 Results -- 5 Conclusion -- References.
Controlled Social Network Adaptation: Subjective Elements in an Objective Social World.
