| Sommario/riassunto | This book explores the struggle between China and the United States to expand their influence in Asia through economic assistance and defensive alliances. It brings together the diverse viewpoints of scholars from various countries on how Asian countries will exploit this |

geo-strategic competition to pursue their national interests, while also balancing their relations with the two great powers. The book offers a valuable asset for all those who have an interest in great power politics and international relations, especially academics, policymakers and security experts.
