1.	Record Nr.	UNINA9910502637303321
	Autore	Chakravarthi Veena S.
	Titolo	Internet of Things and M2M Communication Technologies : Architecture and Practical Design Approach to IoT in Industry 4.0 / / by Veena S. Chakravarthi
	Pubbl/distr/stampa	Cham : , , : Springer International Publishing : , , : Imprint : Springer, , 2021
	ISBN	9783030792725
		3030792722
	Edizione	[1st ed. 2021.]
	Descrizione fisica	1 online resource (303 pages)
	Disciplina	004.678
	Soggetti	Internet of things
		Cooperating objects (Computer systems)
		Industrial engineering
		Automation
		Telecommunication
		Materials
		Actuators
		Internet of Things
		Cyber-Physical Systems
		Industrial Automation
		Communications Engineering, Networks
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di contenuto	Introduction -- Design of IoT -- M2M Communication -- M2M Protocols -- Internet Technologies -- Sensors and actuators -- Capturing Modules -- Cloud Interface -- IOT Product design -- IOT software -- Business Models.
	Sommario/riassunto	This book provides readers with a 360-degree perspective on the Internet of Things (IoT) design and M2M communication process. It is intended to be used as a design guide for the development of IoT solutions, covering architecture, design, and development methods. This book examines applications such as industry automation for

Industry 4.0, Internet of Medical Things (IoMT), and Internet of Services (IoS) as it is unfolding. Discussions on engineering fundamentals are limited to what is required for the realization of IoT solutions. Internet of Things and M2M Communication Technologies: Architecture and Practical Design Approach to IoT in Industry 4.0 is written by an industry veteran with more than 30 years of hands-on experience. It is an invaluable guide for electrical, electronic, computer science, and information science engineers who aspire to be IoT designers and an authoritative reference for practicing designers working on IoT device development. Provides complete design approach to develop IoT solutions; Includes reference designs and guidance on relevant standards compliance; Addresses design for manufacturability and business models.
