

1. Record Nr.	UNINA9910502666903321
Autore	Agarwal Sanjeev
Titolo	Current Orthopaedic Practice
Pubbl/distr/stampa	Cham : , : Springer International Publishing AG, , 2021 ©2022
ISBN	3-030-78529-7
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (654 pages)
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Acknowledgement -- Contents -- List of Contributors -- Contributors to First Edition -- About the Author -- 1: Trauma -- Calculation of Injury Severity Score (ISS) -- Management of Open Fractures -- Classification -- Principles of Management -- Management in the Operating Room -- Wounds with no Skin Loss -- Wounds with Skin Loss -- Evidence for the Management of Open Fractures -- Scapular Fractures -- Classification -- Management -- Glenoid Fractures -- Classification -- Management -- Glenoid Neck Fractures -- Coracoid Fractures -- Classification -- Management -- Floating Shoulder -- Acromioclavicular Joint Injuries -- Classification -- Pathology -- Diagnosis -- Management -- Clavicle Fracture -- Distal Third (Lateral Third) Fractures of the Clavicle -- Classification -- Treatment -- Sternoclavicular Joint Dislocation -- Anterior Dislocation -- Posterior Dislocations -- Dislocation of the Glenohumeral Joint -- Clinical Features -- Imaging -- Management -- Posterior Dislocation -- Fracture of the Proximal Humerus -- Classification -- Hertel Criteria for Humeral Head Perfusion -- Management -- Impacted/Undisplaced Fractures -- Displaced Two-Part Fractures -- Displaced Three-Part Fractures -- Displaced Four-Part Fracture -- Fixation of Three- and Four-Part Proximal Humerus Fractures -- Reverse Total Shoulder Arthroplasty (RTSA) for Osteoporotic Three- and Four-Part Fractures -- Fracture Dislocations of the Shoulder -- Surgical Approach -- Humeral Shaft Fracture -- Classification -- Management -- Plating -- Intramedullary Nail -- External Fixation -- Periprosthetic Humeral

Fractures -- Fracture of the Distal Humerus -- Anatomical Types --
Supracondylar Fracture in Adults -- Transcondylar Fractures --
Intercondylar Fractures -- Fracture of Medial or Lateral Humeral
Condyle in Adults -- Fracture of the Lateral Epicondyle.
Fracture of the Medial Epicondyle -- Management -- Surgical Approach
-- Principles of Surgery -- Complications -- Capitellum Fracture --
Classification -- Management -- Complications -- Elbow Dislocations
-- Clinical Assessment -- Management -- Indications for Nerve
Exploration -- Complications -- Terrible Triad -- Recurrent Elbow
Dislocation -- Coronoid Fracture -- Classification -- Management --
Anteromedial Facet Fracture of Coronoid -- Olecranon Fracture --
Classification -- Management -- Radial Head Fracture -- Classification
-- Management -- Indications for Surgery -- Radial Head Replacement
-- Radial Neck Fracture -- Classification -- Management -- Essex-
Lopresti Fracture Dislocation -- Management -- Monteggia Lesions --
Classification -- Imaging -- Management -- Galeazzi Lesion --
Imaging -- Management -- Fracture of the Radius and Ulna Midshaft
-- Management -- Complications -- Fracture of the Distal Radius --
Anatomy -- Classification -- Evaluation -- Management -- Cast --
Manipulation and K-Wire Stabilisation -- External Fixation -- Open
Reduction and Internal Fixation -- Complications -- Volar Barton
Fracture -- Ulnar Styloid Fractures -- Fractures of the Scaphoid --
Classification -- Treatment -- Complications -- Hip Dislocation --
Classification -- Femoral Head Fractures -- Femoral Neck Fracture --
Anatomy -- Diagnosis -- Classification -- Imaging -- Management --
Timing of Surgery -- Fracture Reduction -- Screw Fixation -- Dynamic
Hip Screw -- Hemiarthroplasty -- Total Hip Arthroplasty --
Management Planning -- Management of Anti-Coagulation --
Complications -- Intertrochanteric Fracture -- Diagnosis --
Classification -- Surgical Planning -- Choice of Implant -- Implant
Position -- Comparison of Different Implants -- Subtrochanteric
Fractures -- Classification -- Management -- Complications --
Femoral Shaft Fracture.
Clinical Evaluation -- Classification -- Management -- External
Fixation -- Ipsilateral Femoral Neck and Shaft Fractures --
Intramedullary Nail -- Retrograde Nails -- Floating Knee -- Reamed
Versus Unreamed -- Complications of Femoral Fractures -- Distal
Femoral Fracture -- Clinical Assessment -- Imaging -- Classification
-- Management -- Knee Dislocation -- Patellar Fracture --
Classification -- Management -- Patellar Tendon Rupture --
Management -- Quadriceps Tendon Rupture -- Management -- Tibial
Spine Fracture -- Classification -- Imaging -- Management -- Tibial
Plateau Fracture -- Imaging -- Classification -- Imaging --
Management -- Surgical Planning -- Tibial Shaft Fracture -- Blood
Supply of the Tibia -- Classification -- Clinical Assessment -- Imaging
-- Management -- Cast Treatment -- Indications for Surgery --
External Fixation -- Ream Versus Unreamed Nails -- Suprapatellar
Versus Infrapatellar Nailing for Tibial Shaft Fractures -- Open Fractures
-- Intraarticular Fractures -- Complications -- Tibial Plafond (Pilon)
Fracture -- Classification -- Surgical Approach -- Management --
Complications -- Ankle Fractures -- Classification -- Determining
Stability of the Ankle Joint -- Normal Radiographic Parameters of Ankle
-- Operative vs. Non-Operative Management of Unstable Ankle
Fracture -- Isolated Medial Malleolus Fracture -- Lateral Malleolus
fractures -- Bimalleolar Fractures -- Injury to the Syndesmosis --
Posterior Malleolus Fracture -- Complications of Ankle Fractures --
Ankle Sprain -- Management -- Chronic Ankle Pain/Instability --
Management -- Achilles Tendon Rupture -- Imaging -- Management

-- Talar Fracture -- Blood Supply to the Talus -- Talar Neck Fractures
-- Classification -- Management -- Complications -- Calcaneal
Fracture -- Classification -- Clinical Features -- Management --
Lisfranc Injury -- Diagnosis -- Classification.
Management -- Metatarsal Fractures -- Fracture of Base of Fifth
Metatarsal -- Pelvic Ring Injuries -- Initial Evaluation -- Imaging --
Stability -- Classification -- Management -- Emergency Management
-- Management of Urological Injury Associated with Pelvic Fractures --
Definitive Treatment -- Outcome -- Acetabular Fractures --
Classification -- Initial Management -- Non-Operative Management --
Indications for Internal Fixation -- Relative Indications for Primary Total
Hip Replacement -- Surgical Approaches -- Management of Different
Fracture Patterns -- Postoperative Management -- Total Hip
Replacement for Posttraumatic Arthritis Following Acetabular Fracture
-- Acute Hip Replacement in Elderly Population for Acetabular Fracture
-- Cervical Spine Injuries -- Mechanism -- Imaging -- Management --
Thoracolumbar Spine Fracture -- Compression Fracture -- Burst
Fracture -- Flexion Distraction Injury -- Fracture Dislocation -- Spinal
Cord Injury -- Emergency Treatment -- Imaging -- Management --
Approaches -- Posterolateral Decompression -- Complications
of Surgery -- Sacral Fractures -- Evaluation -- Classification --
Management -- Fractures in Children -- Hip Fracture -- Classification
-- Blood Supply to the Femoral Head -- Management -- Complications
-- Hip Dislocation -- Femoral Shaft Fracture -- Management -- Spica
-- Traction -- External Fixation -- Flexible Intramedullary Nails --
Dynamic Compression Plate -- Antegrade Femoral Nailing --
Complications -- Supracondylar Femoral Fracture -- Distal Femoral
Physal Fracture -- Patellar Fracture -- Tibial Tubercle Fracture --
Tibial Fracture -- Triplane Fracture -- Seymour Lesion -- Humeral
Shaft Fracture -- Supracondylar Humerus Fracture -- Classification --
Clinical Assessment -- Imaging -- Management -- Complications
of Supracondylar Fractures -- Separation of the Distal Humeral Physis.
Lateral Humeral Condyle Fracture -- Classification -- Management --
Complications -- Medial Epicondyle Fracture -- Radial Head Dislocation
-- Imaging -- Management -- Radial Neck Fractures -- Monteggia
Fracture -- Radius and Ulna Diaphyseal Fracture -- Management --
Distal Radius Fractures -- Further Reading -- 2: Shoulder Disorders --
Osseous Anatomy -- Static Stabilisers -- Dynamic Stabilisers --
Scapula -- The Axillary Spaces -- Quadrangular Space -- Triangular
Space -- Triangular Interval -- Shoulder Pathology -- The Unstable
Shoulder -- Anterior Traumatic Instability -- Natural History
and Recurrent Instability -- Acute Management -- Investigations --
Associated Injuries -- Non-Surgical Management -- Surgical
Management -- Posterior Shoulder Instability -- Investigations --
Treatment -- Non-Traumatic Instability (Polar Type 3) -- SLAP
(Superior Labrum tears Anterior to Posterior) Lesions -- The Painful
Shoulder -- Glenohumeral Pain -- Avascular Necrosis -- Frozen
Shoulder -- Pathophysiology -- Clinical Presentation -- Investigations
-- Management -- Inflammatory Arthritis -- Osteoarthritis -- Rotator
Cuff Arthropathy -- Pathogenesis -- Clinical Presentation --
Management -- Subacromial Pain -- Calcific Tendinitis -- Rotator Cuff
Tendinosis -- Clinical Presentation -- Imaging -- Treatment -- Rotator
Cuff Tears -- Pathology -- Clinical Presentation -- Investigation --
Muscle Changes in Cuff Tears -- Management -- Acromioclavicular
Joint Osteoarthritis -- Os Acromiale -- Biceps Tendinopathy --
Scapulothoracic Pain -- Total Shoulder Replacement -- Anatomical
Relationships -- Humeral Head -- Glenoid -- Component Design
in Total Shoulder Replacement -- Humeral Component Design --

Glenoid Component Design -- Types of Shoulder Replacement
Prostheses -- Indications -- Contraindications -- Surgical
Considerations.
Glenoid Replacement in Shoulder Osteoarthritis.
