Sommario/riassunto

Habsburg networking in the sixteenth and seventeenth centuries?. This volume focuses on the various Habsburg courts and households of the two branches of the dynasty that arose following the division of the territories originally held by Charles V. The authors trace the connections between these courtly communities regardless of their standing or composition, exposing the underlying network they formed. By cutting across the traditional division in the historiography between the Spanish and Austrian Habsburgs and also examining the roles played by the courts and households of lesser known member
