

1. Record Nr.	UNINA9910506381103321
Titolo	Policy and governance of science, technology, and innovation : social inclusion and sustainable development in Latin America // Gonzalo Ordonez-Matamoros [and four others], editors
Pubbl/distr/stampa	Cham, Switzerland : , : Palgrave Macmillan, , [2021] ©2021
ISBN	3-030-80832-7
Descrizione fisica	1 online resource (351 pages)
Collana	Palgrave studies in democracy, innovation, and entrepreneurship for growth
Disciplina	338.9807
Soggetti	Sustainable development - Latin America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	INVECO Includes index.
Nota di contenuto	Structure and Operation of the National Policy Councils for Science, Technology and Innovation: The Cases of Chile and Spain / por Rodrigo A. Cevallos, Carlos Merino Moreno Intro -- Contents -- Notes on Contributors -- List of Figures -- List of Tables -- 1 Policy and Governance of Science, Technology and Innovation for Sustainable and Inclusive Development in Latin America -- 1.1 Lessons Learned from COVID-19 and New/revised STI Policy and Governance Challenges for Social Inclusion and Sustainability in Latin America -- References -- Part I Innovation Policy -- 2 Toward a Typology of Public Innovation. Eccentric, Discrete, Flat and Transformative Innovation -- 2.1 Introduction: A World of Public Innovations -- 2.2 What is Public Innovation? -- 2.3 A Typology of Public Innovation in Accordance to Its Novelty and Adoption -- 2.4 Conclusions -- References -- 3 Mission-Oriented Innovation Policies: An Approach to Two Colombian Cases -- 3.1 Introduction -- 3.2 Importance of the Mission-Oriented Approach for Colombia -- 3.3 Research Methodology -- 3.3.1 Selection of Case Studies -- 3.3.2 Structure of the Case Studies -- 3.3.3 Thematic Analysis -- 3.4 Two Cases of Colombia -- 3.4.1 Case 1: National Optical Fiber Plan (NOFP) -- The Challenge -- MOP characteristics in NOFP. -- NOFP's

Achievements -- 3.4.2 Case Medellín The Most Educated -- Challenge -- MOP characteristics in MTME -- 3.4.3 Lessons Learned from Case Studies -- 3.5 Final Discussion -- References -- 4 Innovation Policies for Inclusive and Sustainable Development: Insights from the Central American Region -- 4.1 Introduction -- 4.2 Countries' Overview of Institutions and Policies -- 4.3 Directionality of STI Policies: Science, Technology, and Innovation for an Inclusive and Sustainable Development -- 4.3.1 Horizontal and Vertical STI Policies in the Central American Region -- Strengthening of Horizontal Research Capacity -- Vertical Mission-Oriented Research Policies -- 4.3.2 Strengthening STI Demand-SMMEs Oriented Policies -- 4.3.3 Technological Extensionism. 4.3.4 Public Procurement and Innovation -- 4.3.5 STI Policies for Inclusive Development -- 4.4 Discussion and Conclusions -- References -- 5 Towards a Regional Policy: Transformative Innovation in Colombia -- 5.1 Introduction -- 5.2 The Territory and the Policy Innovation Models and Frameworks -- 5.3 The Transformative Innovation Framework at the Regional Level in Latin America -- 5.4 Transformative Innovation as a Possibility for the Regionalisation of STI Policy in Colombia -- 5.5 Conclusions -- References -- 6 Transformative Innovation Policy in Emerging Economies: What Does It Entail? -- 6.1 Introduction -- 6.2 Origins of the Transformative Innovation Policy Discourse -- 6.3 Main Tenets of Transformative Innovation Policy -- 6.3.1 Defining Features -- 6.3.2 The Role of Government -- 6.3.3 Guiding Policy Principles -- 6.3.4 TIP Instruments -- 6.4 From Theory to Practice. TIP Implementation in the Case of Colombia -- 6.4.1 Origins of the SASTI Policy -- 6.4.2 SASTI Policy Implementation -- 6.4.3 Main Challenges for Implementation and Success -- The 2010 Version of the SASTI Policy. -- The 2018 SASTI/TIP - 'El Libro Verde' 2030 -- The New SASTI Policy draft -- 6.5 Conclusions -- 6.5.1 Need for a Sharper Conceptualization of the TIP -- 6.5.2 Challenges for Transformative Innovation Policies to Be Effective -- 6.5.3 The Role of Politics in the Policy Process for Transformation -- 6.6 Further Research on TIP Materialization and Perspectives -- References -- 7 A Study of Innovation Policies and Governance Structures in Emerging Economies Under the Path-Dependence Framework. The Case of Colombia -- 7.1 Introduction -- 7.2 Path Dependence, Governance of Innovation and Innovation Policy -- 7.2.1 Governance of Innovation and the Self-Reinforcing Mechanisms -- 7.2.2 Innovation Policies and the Self-Reinforcing Mechanisms. 7.2.3 A Heuristic of a Path Dependence in the Role Assigned to Innovation -- 7.3 Research Approach: Why Colombia? -- 7.4 Building the Juncture Phenomena: The Role of the Institutional Entrepreneurs in the Political Constitution of 1991 and the Economic Liberalisation Process -- 7.5 The Formation Phase: Innovation and Competitiveness Policies and Their Governance Structures as Self-Reinforcing Mechanisms -- 7.5.1 The Collective Nature of the Politics: Knowledge as Input for Productivity in Policies -- 7.5.2 The Institutional Density of Politics: STI and the Increasing Scope of the Competitiveness' Governance -- 7.5.3 Political Authority and Power Asymmetries: Unbalanced Arenas and the Arising of the Industrial Sector -- 7.5.4 The Complexity and Opacity of Politics: Innovation for Economic Productivity -- 7.6 The Lock-In Situation: A Consolidated Phase -- 7.7 Discussion -- References -- Part II STI Governance -- 8 Operational Innovation Policies in Emerging Economies: A Social Network Analysis of the Royalties Fund for Innovation in Colombia -- 8.1 Introduction -- 8.2 Conceptual Approach -- 8.2.1 Functional Approach on Innovation Systems -- 8.2.2

Policy Instruments -- 8.2.3 Policy Networks Approach -- 8.3 Methodological Framework -- 8.3.1 The Case: Networks in Royalties Fund for STI -- 8.3.2 Data Collection -- 8.3.3 Data Analysis: Social Network Analysis -- 8.3.4 Limitations -- 8.4 Results -- 8.5 Discussion and Final Remarks -- 8.5.1 Discussion: Toward an Operational Innovation Policy Network Approach -- 8.5.2 Concluding Remarks: Innovation Policy Instruments and Networks for Inclusive Development -- References -- 9 Regional Diversification, Technological Trajectories and Policy Approaches. The Case of Argentina's Satellite Industry -- 9.1 Introduction.

9.2 Regional Diversification and Technological Trajectories. Contributions from Evolutionary Economic Geography -- 9.3 A Review of Different Approaches to Technological Policy -- 9.4 The Emergence of New Space Technologies in the Present Phase of the ITCs Paradigm -- 9.5 The Scientific-Technological Complex Related to Satellite Projects in Argentina -- 9.6 The Case of the Scientific-Technological Complex in San Carlos de Bariloche -- 9.7 Some Challenges for a New Mission-Oriented Approach to Space Innovation in Argentina -- 9.8 Conclusions -- References -- 10 Structure and Operation of the National Policy Councils for Science, Technology and Innovation: The Cases of Chile and Spain -- 10.1 Introduction -- 10.2 Science, Technology and Innovation Policy, Governance and Policy Councils -- 10.2.1 National Innovation Council for Competitiveness (CNIC) -- 10.2.2 Advisory Council for Science, Technology and Innovation (CACTI) -- 10.3 Methodology and Results -- 10.3.1 Research Methodology -- Data Collection and Analysis -- 10.3.2 Results -- Policy Domain -- Executive Capacity -- Coordinative Capacity -- Summary -- 10.4 Conclusions and Discussion -- Annex 1: Information About the Interviewed Councillors -- Annex 2: Practical Advice for the Design and Implementation of a National Policy Council for Science, Technology and Innovation -- References -- 11 Adequacy of Governance of Science, Technology and Innovation in Developing Countries: The Colombian Case -- 11.1 Introduction -- 11.1.1 Colombian Governance and Institutionalization -- 11.1.2 The Importance of Inclusive Institutionalization -- 11.1.3 Cultural Context -- 11.1.4 Governance Frameworks Study -- 11.2 Conceptual Framework -- 11.2.1 The Preponderance of the Institutional Dimension -- 11.2.2 Problems Addressed.

The Vicious Circle: Weak Demand for Knowledge-Poor Legitimacy-Limited Scientific Production-Backwardness -- 11.2.3 Emerging Knowledge Approaches to STI Management -- Perspective of the Interaction Between Theory, Public Policy and Practice -- Transformative Innovation Policy -- Market, System and State Failures -- The Democratization of Knowledge -- Mission-Oriented Research -- Strategic Governance of R&D -- D Related Policies -- 11.2.4 The Ideal Operationalized Test Pattern -- 11.2.5 The central Question of the Study -- 11.3 Diagnosis of STI Governance in Colombia -- 11.3.1 Multiple Approach -- 11.3.2 Comparison with the Ideal OECD Model -- Level 1: High Level of Cross-Cutting Policy -- Level 2: Intersectoral and Inter-Ministerial Coordination -- Level 3: Coordination of Detailed Policy Development -- Level 4: Coordination Between Agents that Carry Out Research and Innovation -- 11.3.3 Diagnosis of Colciencias -- 11.4 Proposal of Adaptation and Change in the Governance of STI -- 11.4.1 Creation of the National Council for Science, Technology and Innovation -- Creation of a National Council for Science, Technology and Innovation -- Problems (Opportunities) That (the Council) Solve -- 11.4.2 Central Aspects and Changes in the Structure of the Ministry of STI -- Central Aspects

of the Structure and Functions of the Ministry -- Functions
of the Ministry of STI -- The Problems (Opportunities) It Solves --
Comments on the Current Structure and Functions of the Ministry --
11.5 Conclusions and Policy Recommendations -- References -- 12
Innovation Financing: A Proposal to Strengthen the Colombian Setting
-- 12.1 Innovation Financing in Colombia: A Succinct Characterisation
-- 12.2 Analytic Discussion of a Paradoxical Situation -- 12.2.1
A Feasible Explanation of the Colombian Case -- 12.3 Proposals
to Improve the Colombian Innovation Financing Scenario.
12.4 Closing Remarks.
