

1. Record Nr.	UNINA9910506388103321
Titolo	Contemporary logistics in China : systemic reconfiguration and technological progression // edited by Zhilun Jiao [and three others]
Pubbl/distr/stampa	Gateway East, Singapore : , : Springer, , [2021] ©2021
ISBN	981-16-5580-4
Descrizione fisica	1 online resource (268 pages)
Collana	Current Chinese Economic Report
Disciplina	658.5
Soggetti	Development economics Regional economics Industrial organization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- 1 Development of China's Logistics Market -- The Environment for China's Logistics Development -- Obvious Slowing of Global Economic and Trade Growth -- Increase in China's Integrated Economic Strength -- China's Increasing Openness -- Overall Scale of China's Logistics Market -- Total Value of Social Logistics -- Total Expense of Social Logistics -- Freight Volume and Freight Turnover -- Cargo and Container Throughput in Ports -- Cargo and Mail Throughput in Civil Airports -- Business Volume of Express Delivery Industry -- Major Characteristics of China's Logistics Market -- Demand in Segmented Logistics Market Continuing to Diverge -- Capital Driving Acceleration of Logistics Industry Development -- Continued Evolution in Automating and Digitalizing Logistics -- Integration of Logistics Industry Deepening Further -- New Advances in the Globalization of China's Domestic Logistics Enterprises -- Summary -- References -- 2 Logistics Facilities and Technological Development -- Transportation Infrastructure -- Highway Infrastructure -- Railway Infrastructures -- Waterway Infrastructure -- Civil Airports -- Comprehensive Transportation Channels -- Logistics Parks and Warehousing Facilities -- Development Status of Logistics Parks -- Warehousing Facilities -- Logistics Equipment -- Transportation Vehicles -- Warehousing Equipment -- Logistics

Informationization and Standardization -- Development of Logistics Informationization -- Status of Logistics Standardization -- Summary -- References -- 3 Regional Logistics Market in China -- China's Environment for the Development of Regional Logistics Markets -- Economic Growth in the Central and Western Regions Reached a Record High, While that in the Northeast Declined -- The Proportion of the Western Region Continued to Rise, While Regional Differences Showed a Narrowing Trend.

The Industrial Structure of the Four Major Regions Continued to Be Optimized, While the Proportion of the Tertiary Industry of all the Four Regions Rose to Over 50% for the First Time -- Foreign Trade in the Eastern Region Has Risen to a New Level, While the Growth Rate of the Central and Western Regions Has Continued to Fall -- Major Regional Strategies Were Gradually Implemented and the Policy System Was Constantly Being Perfected -- The Current Status

and Characteristics of China's Regional Logistics -- The Scale of China's Market Demand for Regional Logistics -- Development Status of China's Regional Logistics Infrastructure -- Main Characteristics of Regional Logistics in China -- Logistics Development in China's Hotspots -- Logistics Development of a New Land-Sea Channel in Western China -- Logistics Development of the Yangtze River Delta -- Logistics Development of the Guangdong-Hong Kong-Macao Greater Bay Area -- Summary -- References -- 4 Development of Transportation Logistics in China -- Development of China's Highway Logistics -- Highway Freight Volume and Freight Turnover -- Restructuring and Upgrading of Highway Freight Hubs -- Highway Freight Market for Deeper Integration -- The Vast Improvement of Highway Logistics Service Efficiency -- Development of China's Railway Logistics -- Railway Freight Volume and Railway Freight Turnover -- Gradual Improvements in Railway Logistics Service Functions -- Continuous Innovation of the Railway Logistics Service Model -- Development of China's Port and Shipping Logistics -- Port Throughput Continues to Grow, as Port Freight Shows Greater Demand -- The Port and Shipping Logistics Network is Improving Rapidly, While a New Pattern of Two-Way Openness is Gradually Taking Shape. Innovate Organizational Management and Technology Application, and Further Improvement on the Efficiency of Port and Shipping Logistics Services -- The Maritime Silk Road Network and International Logistics Cooperation Continue to Expand -- Development of China's Aviation Logistics -- Airport Cargo and Mail Throughput Has Seen a Slowing Growth Trend, While the Air Cargo Market in the Central and Western Regions Has Risen -- Reduce the Deficiencies of Aviation Infrastructure, and Building Airport Economic Zones as Hotspots -- The Air Cargo Market Remains Highly Concentrated, While Integration of Air Logistics Services Accelerates -- The Rapid Development of Cross-Border E-Commerce Has Boosted Aviation Logistics Service Capabilities -- Summary -- References -- 5

The Development Status of China's Manufacturing Logistics -- The Development Environment of China's Manufacturing Logistics -- The Scale of China's Manufacturing Industry Ranks at the Top in the World -- Strong Impetus for Manufacturing Transformation and Upgrading -- The Transformation Towards "Intelligent Manufacturing" is Accelerated -- The Servitization Reform of the Manufacturing Industry Progresses Steadily -- Industry Related Policies and Plans Are Constantly Issued -- The Development Status of China's Manufacturing Logistics -- The Overall Scale of Manufacturing Logistics Continues to Grow -- The Integration of Logistics and Manufacturing Supply Chain Sped Up -- The Smart Level of Manufacturing Logistics Improved Constantly -- Intelligent

Manufacturing Logistics Service Providers Develop and Grow --
Manufacturing Logistics Presents a Green Development Trend -- The
Development Status of Two Typical Manufacturing Logistics Industries
in China -- The Development Status of the Pharmaceutical
Manufacturing Logistics -- The Development Status of Household
Products Manufacturing Logistics.
Summary -- References -- 6 Development of Commerce Logistics
in China -- Development Environment of Commerce Logistics in China
-- Market Environment for the Development of Commerce Logistics --
The Technological Environment for the Development of Commerce
Logistics -- Policy Environment for the Development of Commerce
Logistics -- Current Development of Commerce Logistics in China --
Commerce Logistics Was Expanding and Maintaining Steady Growth --
Commerce Logistics Network System was Continuously Developing --
The Operational Level of Commerce Logistics Service Companies Was
Steadily Improving -- Commerce Logistics Has Diversified with Multiple
Service Business Models -- Development Status of the Main Sectors
of China's Commerce Logistics Industry -- Rural Trade Logistics Grew
Rapidly and Urban-Rural Integration Continued to Forge Ahead --
Cross-Border E-Commerce Logistics Continued to Grow
and the International Aviation Logistics Network and Overseas
Warehousing Developed Rapidly -- Urban Green Distribution
was Promoted Efficiently and Smart Technology Helped
the Development of Green Logistics -- Summary -- References -- 7
Development of Agricultural Product Logistics in China -- Development
Environment of China's Agricultural Product Logistics -- The Production
and Import Scale of Agricultural Products Continued to Grow --
Agricultural Products E-Commerce Was Developing Rapidly --
Construction of Advantageous Areas for Agricultural Products
with National Characteristics Continued to Advance -- Innovation
in the Agricultural Products Retail Market Was Booming -- Rural Poverty
Alleviation Has Entered a Decisive Period -- Continuous Optimization
of the Agricultural Product Logistics Policy Environment --
Development Status of China's Agricultural Product Logistics -- The
Scale of Agricultural Product Logistics Continued to Expand Steadily.
The Construction of the Agricultural Product Logistics Network Was
Further Being Improved -- Progress Made in the "First Mile"
of Agricultural Products -- Innovation of the "Last Mile Home Delivery"
Model for Fresh Agricultural Products -- Continued Efforts in Cross-
Border Logistics Construction of Agricultural Products -- Development
Status of Some Key Sectors of China's Agricultural Product Logistics
Industry -- Development Status of Grain Logistics -- Development
Status of Fresh Agricultural Product E-Commerce for Agricultural
Products -- Summary -- References -- 8 Policies and Practices
in China's High-Quality Development of Logistics -- Objective
Requirements of China's High-Quality Economic Development
for Logistics Development -- Furthering Supply-Side Structural Reform
Requires the Logistics Industry to Better Serve the Real Economy --
Making China a Country of Innovators Requires the Logistics Industry
to Enhance the Drive Towards Innovative Development -- Pursuing
a Rural Vitalization Strategy Requires Accelerating Improvements
in the Rural Logistics Service System -- Implementing the Coordinated
Regional Development Strategy Requires the Coordinated Development
of Regional Logistics -- Accelerating Efforts to Improve the Socialist
Market Economy Requires Stimulating the Vitality of Logistics Market
Entities -- Making New Ground in Pursuing Opening Up on All Fronts
Requires Building a Global Logistics System to Serve the World --
Relevant Policies in Promoting China's High-Quality Development

of Logistics -- China's Policies in Promoting the High-Quality
Development of Logistics -- Relevant Policies for Building a High-
Quality Logistics Infrastructure Network System -- Relevant Policies
to Improve the Capabilities of High-Quality Logistics to Serve the Real
Economy.
Relevant Policies to Enhance the Endogenous Power of the High-Quality
Development of Logistics.
