

1. Record Nr.	UNINA9910506396203321
Autore	Su Shun-Feng
Titolo	Offshore Robotics : Volume I Issue 1, 2021
Pubbl/distr/stampa	Singapore : , : Springer Singapore Pte. Limited, , 2021 ©2022
ISBN	981-16-2078-4
Descrizione fisica	1 online resource (113 pages)
Collana	Offshore Robotics Ser.
Altri autori (Persone)	WangNing
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- Survey on Collision-Avoidance Navigation of Maritime Autonomous Surface Ships -- 1 Introduction -- 2 State-of-the-Art Autonomous Vessel and Collision Avoidance Technology -- 2.1 Advances in the MASS -- 2.2 Advances in Collision Avoidance and Action Planning Technology -- 3 Maritime Autonomous Navigation Systems -- 3.1 Challenges in Autonomous Navigation Systems in Uncertain Environment -- 3.2 Design of Maritime Autonomous Navigation Systems -- 4 Trade-off Between Autonomy and Navigation Action -- 5 Trends in Maritime Autonomous Navigation Systems -- 6 Conclusion -- References -- Ocean Explorations Using Autonomy: Technologies, Strategies and Applications -- 1 Introduction -- 2 Autonomous Surface Vehicles (ASVs) and the Deployment Strategies -- 2.1 Tasks Management in ASVs -- 2.2 Machine Learning Used in ASVs -- 2.3 Multi-ASV Systems and Control Architectures -- 3 Unmanned Underwater Vehicles -- 3.1 Unmanned Underwater Vehicles Technologies -- 3.2 Underwater Communication Technologies -- 3.3 Control Solutions for AUVs -- 4 Applications of Multiple Autonomous Marine Vehicles -- 4.1 Cooperation of Multiple AUVs -- 4.2 Cooperation of AUVs and ASVs -- 5 Deployment Strategies of Multiple Autonomous Marine Vehicles -- 5.1 Coverage Methods -- 5.2 Cooperative Search Methods -- 5.3 Formation Control Methods -- 5.4 Cooperative Navigation Methods -- 5.5 Rendezvous Planning Methods -- 6 Conclusions -- References -- Single-Beacon Based Underwater Robot Navigation -- 1 Introduction -- 2 Single-Beacon Navigation:

Basic Method -- 2.1 Kinematic Model -- 2.2 Measurement Model --
2.3 Estimation Solution -- 3 Dealing with Unknown ESV -- 3.1 Modified
Measurement Model -- 3.2 State-Augmented Method -- 3.3
Expectation-Maximization Method -- 3.4 Variational Bayesian
Approximation Method -- 4 Numerical Studies -- 4.1 Case 1 -- 4.2
Case 2.
5 Conclusions and Future Directions -- References -- Review
on the Research of Ship Automatic Berthing Control -- 1 Introduction
-- 2 Automatic Berthing Types -- 2.1 Stabilization Control Outside
the Berth -- 2.2 Direct Berthing -- 2.3 Stabilization Control Outside
the Berth and then Parallel Berthing -- 3 Difficulties of Research -- 4
Current Research -- 4.1 Uncertainties of Models -- 4.2 Uncertainties
of Disturbances -- 4.3 Stabilization Problems of Underactuated Ship --
4.4 Path Planning -- 4.5 Control Device Accuracy -- 5 Engineering
Practice -- 6 Prospect -- 7 Conclusion -- References.
