Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	Frontiers in Clinical Diabetes and Healthcare is an Open Access journal which publishes rigorously peer-reviewed research that contributes to our understanding of diabetes and its treatment in clinical settings and the community. We welcome submission that explore therapies, multi-organ complications, pregnancy, nutrition and dietetics, and self-management from a patient perspective. Our focus is on the clinical aspects of diabetes, ultimately aiming to improve treatment experiences and quality of treatment for patients. -- Publisher's website
