

1. Record Nr.	UNINA9910507590503321
Autore	Crusius, Gottlieb Christian
Titolo	Worterbuch zu Xenophons Memorabilien / G. Ch. Crusius, G.A. Koch
Pubbl/distr/stampa	Hildesheim, : H.A. Gerstenberg, 1969
Edizione	[3. Auflage]
Descrizione fisica	130 p. ; 22 cm
Locazione	FLFBC
Collocazione	483 XENOPHON 5
Lingua di pubblicazione	Tedesco Greco antico
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Sul v. del front.: Unveranderte Ausgabe der Auflage: Hannover-Leipzig : Hahn, 1896.

2. Record Nr.	UNINA9910437997003321
Autore	Apergis Emmanuel
Titolo	Fracture-dislocations of the wrist / / Emmanuel Apergis
Pubbl/distr/stampa	Milan ; ; New York, : Springer, c2013
ISBN	88-470-5328-5
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (xiv, 305 pages) : illustrations (chiefly color)
Collana	Gale eBooks
Disciplina	617.57
Soggetti	Fractures Wrist - Wounds and injuries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Part I General Aspects. 1 Wrist Anatomy -- 2 Wrist Biomechanics -- Part II Perilunate Fracture-Dislocations. 3 Acute Perilunate Dislocation -- 4 Scaphocapitate Syndrome -- 5 Palmar Perilunate Dislocation -- 6 Delayed and Chronic Perilunate Dislocation -- Part III Proximal and Distal Wrist Dislocations. 7 Radiocarpal Dislocations -- 8 Carpometacarpal Dislocations -- Part IV Other Carpal Dislocations. 9 Axial Dislocations -- 10 Isolated Dislocations of Carpal Bones.
Sommario/riassunto	According to reports in the literature, despite the severe disruption of carpal anatomy, fracture-dislocations of the wrist are missed on clinical and radiographic examination in a high percentage of cases. Orthopedic surgeons' lack of familiarity with these injuries is one of the factors contributing to failed or delayed diagnosis. This richly illustrated book covers all types of wrist dislocation and fracture-dislocation. Detailed information is provided on anatomy and biomechanics, while terminology and classification of injuries are explained. Treatment options are thoroughly analysed, with special emphasis on surgical treatment, which is presented step by step. All of the figures – radiological and surgical – relate to patients treated by the author himself. Most of the cases are from the Red Cross Hospital of Athens that admits many patients with such injuries, in part through referral from other centres due to the author's acknowledged expertise in the field. This volume, with its highly informative and up-to-date chapters and reviews, and a wealth of color figures, will be of great

practical value for clinicians and residents in orthopedic surgery, who assist them in daily decision making.
