| 1. Record Nr. | UNINA9910507896503321 |
| Autore | Stowasser, Josef Maria |
| Titolo | Lateinisch-deutsches Schulwörterbuch / von J. M. Stowasser |
| Pubbl/distr/stampa | Wien ; Prag, : Tempsky Leipzig, : Freytag, 1894 |
| Descrizione fisica | XX, 1092 p. ; 28 cm. |
| Locazione | FLFBC |
| Collocazione | 473.31 STO |
| Lingua di pubblicazione | Tedesco Latino |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| 2. Record Nr. | UNINA9910783406003321 |
| Autore | Batchelor A. W (Andrew W.) |
| Titolo | Service characteristics of biomedical materials and implants [[electronic resource] /] / Andrew W. Batchelor, Margam Chandrasekaran |
| Pubbl/distr/stampa | London, : Imperial College Press, c2004 |
| ISBN | 1-281-86642-3 9786611866426 1-86094-536-8 |
| Descrizione fisica | 1 online resource (260 p.) |
| Collana | Series on biomaterials and bioengineering ; ; v. 3 |
| Altri autori (Persone) | ChandrasekaranMargam |
| Disciplina | 610.28 |
| Soggetti | Biomedical materials Biomedical engineering Implants, Artificial Prosthesis |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |

Nota di bibliografia

Includes bibliographical references and index.

Nota di contenuto

Preface; Acknowledgements; Contents; Introduction; Physiological Environment of the Human Body; Implantation and Physiological Responses to Biomaterials; Orthopaedic Prostheses; Cardiac, Vascular and Neural Implants; Dental Implants; Bioartificial Pancreas and Bioartificial Liver; Implants and Biomaterials for External Bodily Functions and Cosmetic Advantage; Tissue Scaffolds; Physiological Reactions to External Support Systems; Drug Delivery Systems; Physiological Reaction to Medical Instrumentation and Disposal of Used Biomaterials
APPENDIX 1 Government and Technical Society Standards for Biomedical Materials
APPENDIX 2 Experimental Apparatus to Measure the Service Characteristics of Implants; Index

Sommario/riassunto

A wide variety of materials is being used in biomedical engineering for various functions. This includes a range of ceramics, polymers and metallic materials for implants and medical devices. A major question is how these materials will perform inside the body, which is very sensitive to alien materials.
