

1. Record Nr.	UNISALENT0991003369589707536
Autore	Pancrazi, Pietro
Titolo	Italiani e stranieri / Pietro Pancrazi
Pubbl/distr/stampa	[Milano] : Mondadori, 1957
Descrizione fisica	392 p. ; 20 cm
Collana	I quaderni dello Specchio
Disciplina	809.03
Soggetti	Letteratura
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910508305403321
Autore	Hammah Reginald
Titolo	The evolution of geotech : 25 years of Innovation / / edited by Reginald Hammah [and three others]
Pubbl/distr/stampa	Taylor & Francis, 2022 London : , : CRC Press, , [2022] ©2022
ISBN	1-00-318833-8 1-000-52105-2 1-003-18833-8
Edizione	[First edition.]
Descrizione fisica	1 online resource (690 pages) : illustrations
Disciplina	624.151
Soggetti	Geotechnical engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.

Sommario/riassunto

This publication includes 82 technical papers presented at Rocscience International Conference (RIC) 2021, held online on April 20 and 21, 2021. Rocscience created this event to bring geotechnical academics, researchers and practitioners together to exchange ideas as part of celebrating 25 years of the company's existence. The papers in these proceedings were from keynotes, panel discussions and papers, selected after careful review of over 100 technical submissions delivered at RIC 2021. The technical papers were grouped into sessions based on their subject areas. The conference aimed to stimulate discussions that could help the industry work towards overcoming geotechnical engineering limitations today. It also sought to foster creative thinking that will advance the current states of the art and practice. The keynote addresses, panel discussions and technical presentations tried to examine geotechnical problems and situations from fresh perspectives. RIC 2021 hopes that the proceedings will continue to enrich our thinking and contribute to achieving a critical mass of change in our practices and approaches. We look forward to significant improvements in our industry.
