Sommario/riassunto	A merger or acquisition is one of the most significant events in the life of a firm and the consequences thereof are multi-faceted: Directors' fiduciary duties, shareholders' rights, valuation methods, structuring, and financing of the deal, to cite a few. Moreover, it requires an army of savvy professionals (accountants and investment banks, etc.) throughout the process; those understanding the technicalities of M&A guarantees and preventing costly missteps. This book explains the steps, distilling the process of both the legal and financial aspects of M&A, for both students and practitioners. Felix Lessambo is Adjunct Associate Professor at Fordham University, USA, where he teaches

Corporate Tax and Audit & Assurance Services. He has practiced international tax, transfer pricing, and in alternative investment management groups where he structured and advised on hedge funds and private equity cross-border transactions. He is the author of several books in finance including The International Banking System, The International Corporate Governance System, International Institutions and Their Challenges, International Aspects of US Taxation System, Audit-Assurance Services & Forensics, Financial Statements: Analysis & Reporting, The US Banking System, Mergers in the Global Markets, and International Finance: New Players and Global Markets.
