

1. Record Nr.	UNINA9910508440303321
Autore	Fischman Aaron M
Titolo	Transradial Access in Interventional Radiology : Background, Applications and Techniques
Pubbl/distr/stampa	Cham : , : Springer International Publishing AG , , 2021 ©2022
ISBN	3-030-81678-8
Descrizione fisica	1 online resource (244 pages)
Altri autori (Persone)	PatelRahul S LooksteinRobert A
Soggetti	Radiography, Interventional Radial Artery - diagnostic imaging Vascular Access Devices Endovascular Procedures Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Contributors -- Chapter 1: The Advent of Transradial Interventions: An Overview -- Historical Highlights of Transradial Artery Catheterization -- Preamble -- Origins of Transradial Approach -- Development and Acceptance of Transradial Approach in Interventional Cardiology -- The Evolution of Interventional Radiology and Its Adoption of the Transradial Approach -- References -- Chapter 2: Anatomy and Physical Exam -- Brachial Artery Anatomy -- Radial Artery Anatomy -- Blood Supply to the Hand -- Physical Exam -- Modified Allen Test -- Barbeau Test -- Sonographic Assessment of the Radial Artery -- References -- Chapter 3: Nursing Assessment -- Introduction -- Orienting the Patient -- Informed Consent -- History, Physical Exam, and Medications -- References -- Chapter 4: Procedure Suite Setup -- Introduction: Prior to Entering the Angiography Suite and Angiography Suite Setup -- Equipment List -- Technical Considerations: Patient Positioning and Obtaining Radial Access -- References -- Chapter 5: Recovery Room and Post-procedure Care -- Introduction: Hemostasis --

Equipment List -- Technical Considerations: Post-procedure Care and Post-procedural Complications -- References -- Chapter 6: Access Complications and Management -- Introduction -- Radial Artery Spasm -- Tactics to Minimize RAS -- Procedural Management of RAS -- Take-Home Points -- Radial Artery Occlusion -- Risk Factors for RAO -- Techniques to Reduce RAO -- Treatment of RAO -- Consequences of RAO -- Hematomas -- Access-Site Hematoma -- Radial Artery Perforation -- Compartment Syndrome -- Miscellaneous Vascular Complications -- Dissection -- Pseudoaneurysm -- AV Fistula -- Radial Arteritis -- Neurologic Complications -- Risk of Stroke -- Neuromuscular Complications -- Device-Related Complications -- Sheath Entrapment -- Catheter Granuloma -- Conclusion. References -- Chapter 7: Transradial Access for Renal and Mesenteric Artery Disease -- Introduction -- Case 1 -- Case 2 -- Case 3 -- Conclusion and Future Direction -- Author Equipment List -- Procedure Menu -- Tips -- References -- Chapter 8: Transradial Access for Interventional Oncology: Chemoembolization and Radioembolization Applications -- Introduction -- Indications and Associated Epidemiology -- Hepatocellular Carcinoma and Liver Metastasis -- Procedural Methodology -- Access -- Benefits of Transradial Access (TRA) in Interventional Oncology -- References -- Chapter 9: Transradial Access for Peripheral Arterial Disease: Aortoiliac Applications -- Introduction -- Aortoiliac Disease -- Transradial Access for Aortoiliac Peripheral Arterial Disease: Technical Considerations and Case Examples -- Radial Artery Access and Navigating to the Descending Aorta -- Aortoiliac Interventions -- Case 1 -- Right Common Iliac and External Iliac Stenosis Causing Claudication -- Case 2 -- Right External Iliac Artery Bypass Stenosis Causing Rutherford Grade III Claudication -- References -- Chapter 10: Transradial Access for Peripheral Arterial Disease: Infringuinal Applications -- Introduction -- Infringuinal Disease -- Transradial Access for Infringuinal Peripheral Arterial Disease: Technical Considerations and Case Examples -- Radial Artery Access and Navigating to the Descending Aorta -- Case 1 -- Superficial Femoral Artery In-Stent Neointimal Hyperplasia Causing Hemodynamically Significant Stenosis -- Case 2 -- Occluded Popliteal Artery and Posterior Tibial Artery Causing Nonhealing Toe Ulcers -- Case 3 -- Nonhealing Foot Wound -- References -- Chapter 11: Aortic Endoleak Following Endovascular Aortic Repair -- Introduction -- Endoleak Classification -- Type I -- Type II -- Type III -- Type IV -- Type V -- Diagnosis/Post-EVAR Surveillance. Timing and Modality -- Endoleak Management and Approach -- Type I -- Type II -- Type III -- Type IV -- Type V -- A Word on Anti-thrombotic Therapy and Endoleak -- TEVAR Endoleak Management -- Complex Endograft Endoleak Management -- Endoleak Prevention -- Considerations for Radial Access in Treatment of Endoleak -- Summary and Recommendations -- Case Images (Figs. 11.7, 11.8, and 11.9) -- References -- Chapter 12: Transradial Access for Peripheral Arterial Disease: Subclavian and Upper Arm Interventions -- Subclavian and Upper Arm Interventions -- Case 1 -- Left Subclavian Arteriovenous Malformation Causing Severe Left Upper Extremity Pain, Swelling, and Ulceration -- Case 2 -- Left Subclavian Artery Embolization in a Patient with Persistent Endoleak from Thoracic Stent Graft -- Case 3 -- Embolization of Right Brachial Artery Branches Supplying Metastatic Humeral Mass -- Case 4 -- Thrombosis of Left Arteriovenous Fistula in Dialysis Patient -- Case 5 -- Embolization of a Persistent Left Circumflex Humeral Artery Bleed -- References -- Chapter 13: Transradial Access in Uterine Artery Embolization --

Introduction -- Safety -- Pain Management and Patient Satisfaction -- Case Examples -- Case 1: Uterine Artery Embolization Via Radial Approach for the Treatment of Symptomatic Uterine Fibroids -- Case 2: Uterine Artery Access Via Radial Approach for Uterine Artery Embolization Utilizing a Microcatheter -- Case 3: Right Uterine Artery Access Via Radial Approach for Uterine Artery Embolization in an Unstable Patient with Post-myomectomy Bleeding -- Equipment List -- Technical Considerations -- References -- Chapter 14: Prostate Artery Embolization -- Introduction -- Equipment List -- Procedural Overview and Technical Considerations -- Case Example -- References -- Chapter 15: Hemodialysis Access Interventions -- Introduction. Dysfunction (Case 1) and Non-maturation (Cases 2 and 3) -- Acute Circuit Thrombosis (Case 4) -- Our Technique -- Practical Tips -- Conclusion -- Summary of Primary Evidence -- Cases -- Bibliography -- Chapter 16: Carotid and Vertebral Intervention -- Introduction -- Equipment List -- Arch Navigation -- Right Vertebral Artery Origin Angioplasty and Stenting -- Case Description -- Procedure -- Right ICA Angioplasty and Stenting -- Case Description -- Procedure -- Left ICA Primary Stenting -- Case Description -- Procedure -- Left Vertebral Artery Origin Angioplasty and Stent -- Case Description -- Procedure -- References -- Chapter 17: Endovascular Neurosurgery and Stroke Intervention -- Introduction -- Neuroangiography -- Case Description -- Procedure -- Stent-Assisted Coiling of Unruptured Right MCA Wide-Neck Bifurcation Aneurysm -- Case Description -- Procedure -- LICA Blister Aneurysm Embolization with Flow Diversion -- Case Description -- Procedure -- Right Occipital AVM Embolization with Onyx -- Case Description -- Procedure -- Direct Aspiration Thrombectomy of Distal Basilar Occlusion -- Case Description -- Procedure -- References -- Chapter 18: Acute Hemorrhage and Trauma -- General Considerations -- To CTA or not to CTA -- Radial Access and Impaired Blood Clotting -- The "Radial Cocktail" in the Setting of Hemorrhage -- n-Butyl Cyanoacrylate for Hemorrhage -- Thorax -- Bronchial Artery Embolization -- Sample Setup -- Intercostal Artery Embolization -- Sample Setup -- When in Doubt -- Abdomen -- Gastrointestinal Tract Hemorrhage -- Sample Setup -- Stent-Assisted Embolization -- Sample Setup -- Splenic Hemorrhage -- Sample Setup -- Renal Hemorrhage -- Sample Setup -- Pelvis -- Traumatic Pelvic Hemorrhage -- Sample Setup -- Post-partum Hemorrhage -- Hematuria -- Sample Setup -- References -- Chapter 19: Transulnar Arterial Access. Introduction/Background -- Patient Selection -- Ulnar Artery Access Technique (Figs. 19.1 and 19.2) -- Ulnar Artery Closure Technique: (Fig. 19.3) -- Authors Equipment List (Tables 19.2 and 19.3) -- Transulnar Arterial Cases -- Case 1 -- Case 2 -- References -- Chapter 20: Distal Transradial Arterial Access -- Introduction/Background -- Patient Selection -- Distal Transradial Arterial Access Step-by-Step Technique -- Distal Transradial Arterial Closure Technique: (Fig. 20.4) -- Authors Equipment List (Tables 20.2 and 20.3) -- Distal Transradial Arterial Cases -- Case 1 -- Left Shoulder Mass Pre-operative Embolization -- Case 2 -- Pre-radioembolization Mapping -- Case 3 -- Embolization of Left Humerus Metastatic Hepatocellular Carcinoma Mass -- References -- Chapter 21: Transradial Access for Bariatric Embolization -- Introduction -- Anatomical Considerations -- Visceral Anatomy of the Stomach -- Conventional Gastric Arterial Anatomy -- Variant Gastric Arterial Vascular Anatomy -- Benefits of Transradial Approach in BAE -- Technical Considerations -- General Transradial BAE Technique -- Catheter Selection -- Intra-arterial Vasodilation -- Bead Size -- Particle Embolization -- Post-procedural Considerations -- Conclusion --
