

1. Record Nr.	UNINA9910508482803321
Autore	Gacche Rajesh N.
Titolo	Dietary research and cancer / / Rajesh N. Gacche
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-16-6050-6
Descrizione fisica	1 online resource (209 pages) : illustrations
Disciplina	170
Soggetti	Biotechnology Nutrition Therapy Diet Therapy Neoplasms - diet therapy Càncer Dietoteràpia Investigació Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Foreword -- Preface -- Acknowledgement -- Contents -- About the Author -- Chapter 1: Introduction to Dietary Research and Cancer -- Introduction -- The Evolving Trends in Dietary Research -- Conclusion -- References -- Chapter 2: Healthy Dietary Patterns and Cancer -- Introduction -- Clinical Benefits of Different Dietary Patterns in Cancer Prevention -- Conclusion -- References -- Chapter 3: Frequently Asked Diet- and Nutrition-Related Questions by Cancer Survivors -- Introduction -- The Overview of Frequently Asked Questions by the Cancer Survivors -- The Common Questions Asked by the Cancer Survivors and Answer by the Experts of ACS -- The Possible Answers to Cancer Survivors by Other Organizations/Healthcare Agencies -- Conclusion -- References -- Chapter 4: Dietary Recommendations of Worldwide Cancer-Related Organizations -- Introduction -- Overview of Dietary Recommendations of Cancer-Related Agencies -- Conclusion -- References -- Chapter 5: Outcome

of ``Diet and Cancer``-Related Clinical Trials -- Introduction --
Outcome of ``Diet and Cancer``-Related Clinical Trials -- Conclusion
-- References -- Chapter 6: Diet and Cancer Epigenetics: A Step
Towards Developing Cancer Epigenetic Diet -- Introduction -- Diet and
Cancer Epigenetics: A Step Towards Developing Cancer Epigenetic Diet
-- Conclusion -- References -- Chapter 7: Role of Dietary Ingredients
on Expression of Oncogenic and Tumour Suppressor miRNA --
Introduction -- Influence of Diet on Expression of Oncogenic and
Tumour Suppressor miRNA -- Diet and miRNA Regulation: Suppressing
the Oncogenic and Upregulating the Tumour-Suppressing miRNAs --
Conclusion -- References -- Chapter 8: Can Diet Influence Metastasis?
-- Introduction -- Can Diet Influence Metastasis? -- Targets for
Arresting Metastasis -- Dietary Metabolites as Potential Antimetastatic
Agents -- Conclusion.
References -- Chapter 9: Impact of Dietary Interventions on Cancer
Stem Cells -- Introduction -- Impact of Dietary Interventions on Cancer
Stem Cells -- Conclusion -- References -- Chapter 10: Interaction of
Dietary Metabolites with Anticancer Drug Targets -- Introduction --
Dietary Metabolites as Inhibitors of Variety of Anticancer Targets --
Conclusion -- References -- Chapter 11: Revisiting the Anticancer
Drug-Food Interactions -- Introduction -- Clinical Evidences of Food-
Drug Adverse Interaction -- Conclusion -- References -- Chapter 12:
Functional Foods, Nutraceuticals and Dietary Supplements in Cancer
Prevention -- Introduction -- Role of Functional Foods in Cancer --
Nutraceuticals and Cancer Prevention -- Dietary Supplements and
Cancer Treatment -- Conclusion -- References -- Chapter 13: Do
Antioxidants Really Help Cancer Patients? The Puzzle of Benefits and
Perils -- Introduction -- Benefits and Perils of Antioxidant
Supplements: Clinical Evidence and Conflicts of Benefits and Risk --
Conclusion -- References -- Chapter 14: Market of Dietary
Supplements: Analysis of Health Benefits and Risk in Cancer --
Introduction -- Mitigating the ``Profit Rich-Benefits Poor`` Market of
Dietary Supplements and Educating the Cancer Survivors -- Conclusion
-- References -- Chapter 15: Cancer and Fasting: Can Fasting/Calorie
Restriction (CR) or Fasting-Mimicking Diet (FMD) Help Fight Cancer?
Molecu... -- Introduction -- Molecular Basis of Fasting Response --
Conclusion -- References -- Chapter 16: Do Fasting, CR and FMD
Improve the Chemotherapy Response, Reduce Off-Target Toxicities and
Enhance Antitumour Immu... -- Introduction -- Role of Fasting, CR and
FMD in Cancer Chemotherapy -- Role of Fasting, CR and FMD in
Immunosurveillance in Cancer -- Is There a Valid Clinical Evidence of
Fasting or CR Induced Protection Against Cancer? -- Conclusion.
References -- Chapter 17: Future Prospectus of Dietary Interventions in
the Integrated Management of Cancer -- Introduction -- Need for
Developing Conclusive Evidence-Based Dietary Guidelines -- The New
Research Windows in Diet-Cancer Discourse -- Emerging Research
Opportunities in Mainstream of Diet-Cancer Area -- Conclusion --
References.
