   Sommario/riassunto  NOCS is the premier event dedicated to interdisciplinary research on
                       on-chip, package-scale, chip-to-chip, and rack-scale communication
                       technology, architecture, design methods, applications and systems.
                       NOCS brings together scientists and engineers working on innovations
                       and applications from inter-related research communities, including
                       discrete optimization and algorithms, computer architecture,
                       networking, circuits and systems, packaging, embedded systems, and
                       design automation.
