1. Record Nr.   UNINA9910510476403321

   Titolo   Proceedings of the 2020 ACM SIGPLAN Symposium on SPLASH-E / / editors, Elisa Baniassad, Charlie Curtsinger

   Pubbl/distr/stampa New York : , : Association for Computing Machinery, , 2020

   Descrizione fisica 1 online resource (28 pages) : illustrations

   Collana   ACM conferences

   Disciplina   005.1

   Soggetti   Programming languages (Electronic computers)
                       Component software

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Sommario/riassunto The SPLASH-E symposium is a forum for researchers and educators to discuss the intersection of education and the core SPLASH research areas---systems, programming languages, and applications. We investigate how to deliver systems and programming languages concepts to students, how systems and languages can aid in education broadly, and how to prepare students to apply these concepts to their later work in industry or academia.
