

1. Record Nr.	UNINA9910510481303321
Autore	Cavalcante Everton
Titolo	Proceedings of the 14th Brazilian Symposium on Software Components, Architectures, and Reuse // Everton Cavalcante
Pubbl/distr/stampa	New York : , : Association for Computing Machinery, , 2020
Descrizione fisica	1 online resource (172 pages) : illustrations
Collana	ACM international conference proceedings series
Disciplina	005
Soggetti	Software architecture Computer software Component software
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Welcome to SBCARS 2020, the 14th Brazilian Symposium on Software Components, Architectures, and Reuse. The symposium is promoted by the Brazilian Computer Society (SBC) and brings together Software Engineering researchers and practitioners who are engaged with the challenges of software product lines, component-based development, SOA, software architecture, modularization, code analysis, reuse, and other related topics. This year, for the tenth time, the symposium is part of the Brazilian Conference on Software: Theory and Practice (CBSOft 2020), which integrates three other important symposia: the Brazilian Symposium on Software Engineering (SBES), the Brazilian Symposium on Programming Languages (SBLP), and the Brazilian Symposium on Systematic and Automated Software Testing (SAST).
