   Descrizione fisica   1 online resource (XX, 581 p.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 6704

   Disciplina   006.3

   Soggetti   Artificial intelligence
                        Application software
                        Algorithms
                        Computer communication systems
                        Information storage and retrieval
                        Database management
                        Artificial Intelligence
                        Information Systems Applications (incl. Internet)
                        Algorithm Analysis and Problem Complexity
                        Computer Communication Networks
                        Information Storage and Retrieval
                        Database Management

   Sommario/riassunto   The two volume set LNAI 6703 and LNAI 6704 constitutes the
                        thoroughly refereed conference proceedings of the 24th International
                        Conference on Industrial Engineering and Other Applications of Applied
                        Intelligend Systems, IEA/AIE 2011, held in Syracuse, NY, USA, in
                        June/July 2011. The total of 92 papers selected for the proceedings
                        were carefully reviewed and selected from 206 submissions. The

papers cover a wide number of topics including feature extraction, discretization, clustering, classification, diagnosis, data refinement, neural networks, genetic algorithms, learning classifier systems, Bayesian and probabilistic methods, image processing, robotics, navigation, optimization, scheduling, routing, game theory and agents, cognition, emotion, and beliefs.
