Sommario/riassunto

In Antoni van Leeuwenhoek, Master of the Minuscule , the Father of Microbiology is presented in the context of his time, relationships and the Dutch Golden Age. Although he lacked an academic education, he dedicated his life to investigating the microscopic world using handmade, single-lensed microscopes and magnifiers. An expert observer, he planned experiments and designed equipment to test his theories. His pioneering discoveries included blood cells, protozoa, bacteria and spermatozoa, and resulted in an international reputation among the scientific and upper classes of 17th and 18th century Europe, aided by his Fellowship of the Royal Society of London. This lavishly illustrated biography sets his legacy of scientific achievements against the ideas and reactions of his fellow scientists and other contemporaries.

Sommario/riassunto

This book centres on the war that raged between Eritrea and Ethiopia from 1998 to 2000, a war that caused great loss of life and tremendous devastation. It analyses the war in great detail from an international legal perspective: the nature and the state of the boundary conflict preceding the actual armed conflict, the military actions themselves, the role of the UN peace-keeping mission, the responsibility for the multitude of explosive remnants of the war left behind. Ample attention is paid to the decisions of the Eritrea-Ethiopia Claims Commission and the Eritrea-Ethiopia Boundary Commission. This study is not limited to the war and the period immediately following it, it also examines its

more extended aftermath prolonging the analysis as far as the more recent improvement in the relations between Eritrea and Ethiopia, away from a situation of 'no war, no peace' that prevailed after the armed conflict ended. The analysis of the war and its aftermath is not only in terms of international legal issues, it has been placed in a wider than strictly legal perspective. The book is a valuable work for academics and practitioners in international law, human rights and humanitarian law in particular, for political scientists, diplomats, civil servants, historians, and all those others seriously interested in the Horn of Africa. Andrea de Guttry is Full Professor of Public International Law at the Scuola Superiore Sant'Anna in Pisa, Italy. Harry H.G. Post is Adjunct Professor in the Faculté Libre de Droit of the Université Catholique de Lille in Lille, France. Gabriella Venturini is Professor Emerita in the Dipartimento di Studi internazionali, giuridici e storico-politici of the Università degli Studi di Milano in Milan, Italy.
